

Failure Mode and Effects Analysis (FMEA) training course

What is it?

Prevention is always better than cure! Failure Mode and Effects Analysis (FMEA) was originally developed in the 1960's in the aerospace industry as a systematic method of identifying and investigating potential design or process weaknesses.

Who should attend?

This course is delivered in-company and is ideal for those involved in the design or specification of products, processes or services and managers wishing to gain an understanding of FMEA prior to implementing it within their organization.

How will I benefit?

FMEA is now widely used to evaluate and manage risk in both product and process design. Through the recognition and evaluation of potential areas of failure, an organization can identify preventative actions and therefore minimise the risk of system failure

What will I learn?

This course covers an introduction to FMEA, along with its purpose, background and benefits. Our tutors will spend time guiding you through how to implement FMEA within your organization and where is best to apply it. Project planning, design verification and cause of failure will also be covered in this course..

How will I learn?

Quickly. We use accelerated learning techniques that encourage interaction and collaboration, keep the workshop varied and put your learning in context. Your tutors are the best in their field and will make sure your learning needs are met. You can choose between public or an in-company workshop tailored to your business – whatever delivers the most positive and successful outcome for you.

What is Learn Plus?

With Learn Plus, you'll get regular webinars and e-learning resources that support your continual learning. We recognise that after you complete your course, your learning doesn't automatically stop. That's why we take care of it so you can concentrate on putting it into practice.

Where will I learn?

You won't have to travel far to our first class venues. These include Cranage Hall in rural Cheshire,

the historic Grand Central Hotel in Glasgow and the idyllic Sedgebrook Hall in Northampton. You can also learn in central London and Cardiff.

Who are we?

As the world's first National Standards body, our expertise in shaping business standards spans more than a century. Our tutors are skilled in transferring knowledge contained within each standard to help you embed excellence within your organization. With over 65,000 clients in 150 countries world-wide, you can trust BSI to help you perform better, reduce risk and grow sustainably.

Why train with us?

We've audited thousands of businesses using the same standards so we can genuinely benchmark performance. And we can take you from beginner to certification quickly then support you with follow-up courses and webinars – and all this for the price of your workshop.
