...making excellence a habit.™

What is Good Environmental Choice Australia (GECA)?

GECA is an independent, not-for-profit environmental standards-setting body and owner of the Good Environmental Choice Australia Ecolabel. Since launching in 2001, GECA has become the leading Australian ecolabel standards body with a range of environmental labelling standards covering consumer, industrial and building products.

GECA's ecolabelling program complies with the international standard ISO 14024 for third party environmental labelling programs. Voluntary ecolabelling standards produced by GECA provide the benchmark for establishing compliance of products and services to the requirements of the Good Environmental Choice Label.

Environmental Product Certification Solutions

Increasing awareness and concern about environmental performance and sustainability of products is driving progressive manufacturers to make environmentally preferable products. BSI's product environmental certification services aim to provide consumers, the market, regulators and manufacturers with confidence about the environmental performance claims of a range of products.

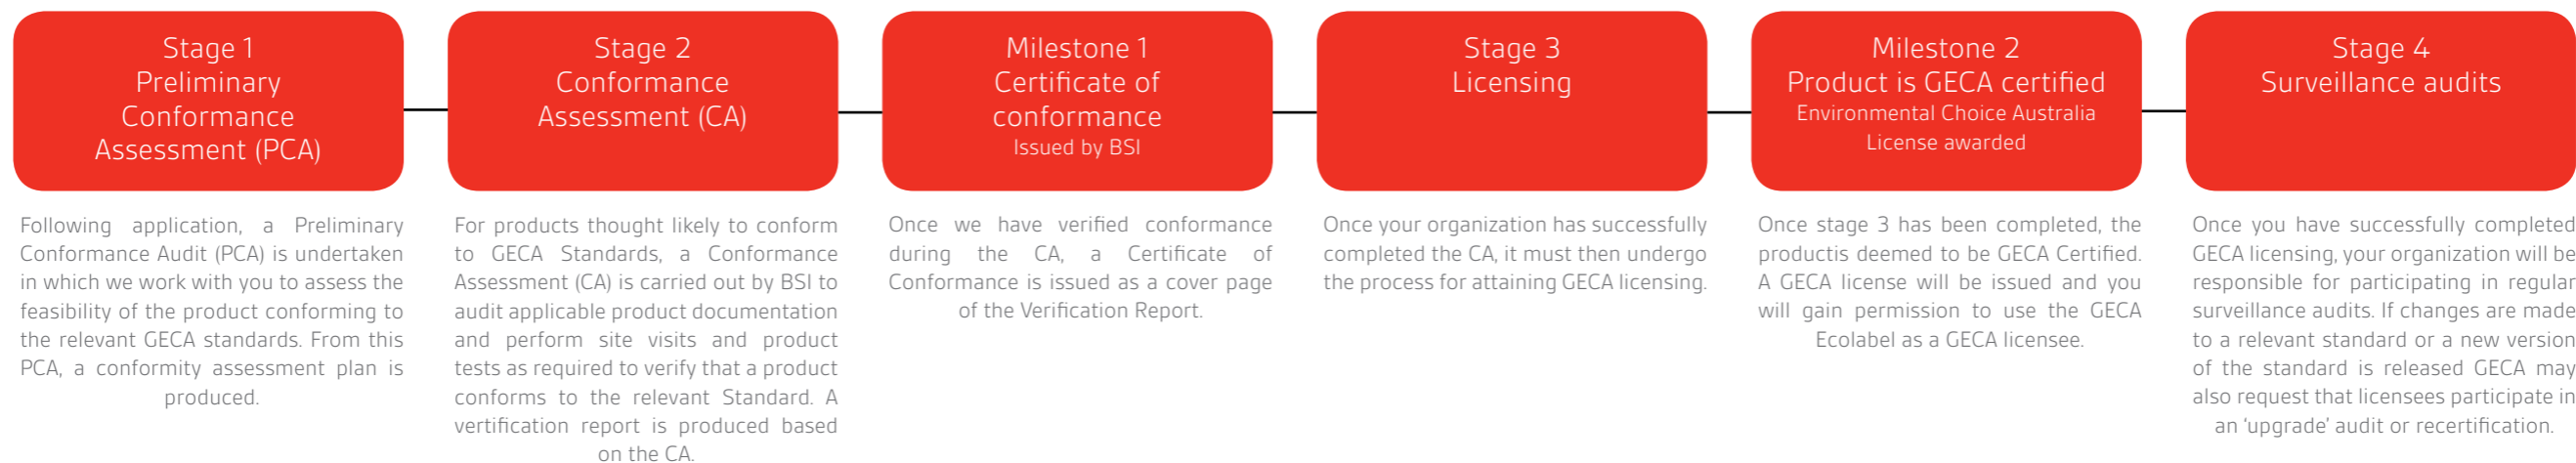

Our environmental product certification audits assess compliance of products with recognized industry benchmarks as well as product ecolabelling programs complying with the international Standard ISO 14024.

Who we are

BSI is the business standards company that helps organizations all over the world make excellence a habit. For more than a century we have been challenging mediocrity and complacency to help embed excellence into the way people and products work.

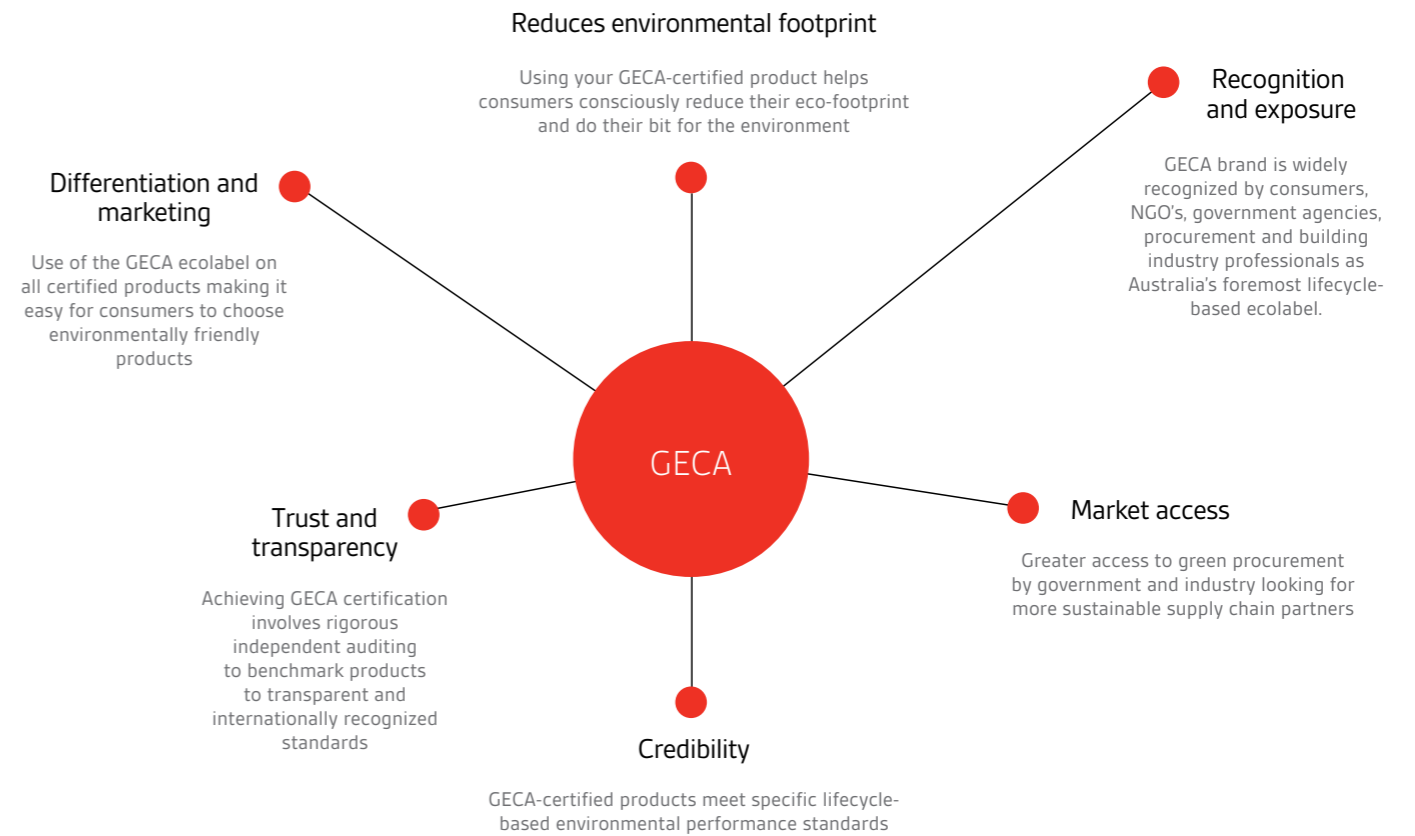

That means working with businesses how to improve performance, reduce risk and achieve sustainable growth. We acquired NCSI in May of 2013. The acquisition means that we are a genuine Australian and global market leader. By joining the two organizations together we have increased our scale and expertise, certifying more than 3,500 clients across more than 50 programs in Australia. This enables us to offer clients a greater range of integrated services and for those clients with international needs, access to a global network across 150 countries worldwide.

What is the GECA certification process?

What are the benefits?

BSI provides businesses and manufacturers of certain products and services independent certification of compliance to relevant GECA ecolabelling standards. We provide gap assessments of products against compliance with relevant GECA ecolabelling standards and conformance assessment audits of product environmental declarations to certify compliance with GECA ecolabelling standards.

What else do we do?

Business assurance and quality management

Our quality products and services will help your business perform at its best, from implementing a quality management system to the testing and certification of your products. Investing in quality can help you save money, increase profit, win more business and satisfy more customers. We also offer sector-specific quality management schemes including aerospace, automotive, medical devices and IT service.

Environmental and Sustainability training courses

Food safety

BSI believes the world should be supplied with safe, quality food and we now offer a broad range of Food Safety certification services after integrating with NCSI. We are Australia's leading food safety certification provider, with extensive auditing capacity and capability to conduct integrated audits for a wide range of Food Safety standards across the entire food and beverage supply chain. Our service solution for food safety includes certification, training, assessment, and supply chain software, providing you and your customer's assurance and enabling you to manage risk more effectively.

Health and Safety

Taking health and safety seriously can achieve maximum return for your employees, your operations and your customers. We provide a range of products and services to help you make your workplace healthy and safe, as well as providing testing and certification services to help personal protective equipment (PPE) manufacturers meet and demonstrate compliance with relevant legislation. We offer safety management certification for AS/NZS 4801, OHSAS 18001, National (OHS) Self-Insurance and SafetyMAP schemes. A well-structured safety management system gives you an advantage over your competitors in tendering processes.

Training

We understand that business success starts with people. We're one of the world's leading providers of training on standards, management systems and business improvement. Our trainers are recognised as leaders in the field and provide quality training to organizations of all sizes and from all sectors. We offer both public and tailored in-house training across a range of areas including Quality, Environmental and Safety management systems, as well as courses on Food Safety. Whether you're looking to gain a basic understanding of how standards can help your business, want to learn best practice for implementing standards, want to become a qualified auditor, or gain a nationally recognized diploma – we'll support you all the way.

Making a decision about product certification is an important commitment. Talk to one of our advisors today and tell us what you need. In the meantime please visit www.bsigroup.com.au for more information about product certification at BSI.
