

What environmental impact are you making?

ISO 14001 through BSI will help you.

bsi.

...making excellence a habit.™

ISO 14001 can help you save money, energy and the environment.

One of the key challenges facing businesses is the impact of our activities on the environment and growing in a sustainable way. How we meet these challenges will make a difference to how we do business and the impact on the planet.

ISO 14001 Environmental Management System is designed to help your business remain commercially successful, while effectively managing your environmental responsibilities. We can help you identify and control how your business affects the environment, to comply with the associated legislation and to enable a robust policy process to conserve your resources and save money.

Working with us, can guide your organization to deliver considerable environmental, economic and social benefits by providing a framework for managing sustainability, whatever your size, sector or geographical location.

The benefits our certified clients have enjoyed speak for themselves:

^{*} Vs non-certified companies when comparing average profitability (ROA) - Kent Business School – ISO 14001 certification and financial benefits 2008.

Operational benefits of ISO 14001 implementation include reducing environmental hazards, improving environmental performance and waste management. As an organizations EMS matures further business performance improvements are realized.

ISO 14001 is a world-class management system that provides a structure for managing your environmental performance. By developing and implementing robust policies you can reap rewards such as waste reduction and efficiency improvements.

With an effective system in place, you'll be able to meet the increasingly high customer expectations of corporate responsibility, better meet your supply chain requirements and streamline your operations, leading to cost savings.

	Understanding		Implementing the solution		Getting certified		Making excellence a habit
Step	Information gathering	Calculating the benefits	Preparing the organization	Putting together a tailored	Running the system	Proving its working	Looking for opportunities for continual improvement

BSI services to help you	Your BSI contact BSI's website and brochure ISO 14001 Standard/Buying Standards Online (BSOL) Case studies	Your BSI contact ISO 14001 Management Briefing Introduction to ISO 14001 training	Your BSI contact 'Managing the Environment the ISO 14001 Way' book Implementing ISO 14001 training BSI's Entropy™ Software helps you understand the requirements and track progress Senior management are actively involved during preparation	BSI Gap Analysis BSI's Entropy™ Software helps you identify the gaps in your system Typically organizations assign a particular staff member or resource and engage Senior Management during	Your BSI contact 'ISO 14001 Internal Auditor' training BSI's Entropy™ Software helps you effectively manage your systems and drive performance	BSI Certification Assessment	Continuously update policy and procedures Regularly conduct internal audits for improving processes BSI's unique Excellerator report provides even more detail on the performance of your system BSI's Entropy™ Software helps you effectively manage your systems and drive performance ISO 14001 Lead Auditor Qualification

ISO 14001 from BSI. Our numbers add up to sustainable growth.

Our knowledge, expertise and drive can make the difference to your organization:

1. We are pioneers. We produced the world's first environmental standard, BS 7750, now ISO 14001, back in 1992. You can trust us to get the standard right and keep it relevant.
2. BSI is renowned for its innovative work in this field, constantly introducing new ways to tackle the challenges presented by the ever-changing issues of sustainability.
3. We continue to lead the way with ongoing developments in environmental management, energy management, corporate social responsibility, product carbon footprinting and biodiversity.
4. You can enjoy the benefits of working our team who have decades of experience helping businesses embed ISO 14001 in an array of different sectors. They can help you understand the challenges and share their knowledge.
5. We provide end-to-end support, helping you monitor and maintain your excellence through our proprietary software and compliance tools so that you can confidently introduce ISO 14001 into your organization.
6. We talk with, and listen to clients like you every day, asking them what they want and how satisfied they are with our products and services. This way we can make sure we are responding to the needs of our clients as they arise.
7. BSI invests heavily in recruiting and developing the best assessors, who scored on average 9.2/10 in our Global Client Satisfaction Survey.

Business assurance and quality management

Our quality products and services will help your business perform at its best, from implementing a quality management system to the testing and certification of your products. Investing in quality can help you save money, increase profit, win more business and satisfy more customers. We also offer sector-specific quality management schemes including Food Safety, Construction, Manufacturing, Human Services, Health, Services, Automotive, Medical Devices and IT services.

Food safety

BSI believes the world should be supplied with safe, quality food and we now offer a broad range of Food Safety certification services after integrating with NCSI. We are Australia's leading food safety certification provider, with extensive auditing capacity and capability to conduct integrated audits for a wide range of Food Safety standards across the entire food and beverage supply chain. Our service solution for food safety includes certification, training, assessment, and supply chain software, providing you and your customer's assurance and enabling you to manage risk more effectively.

Health and Safety

Taking health and safety seriously can achieve maximum return for your employees, your operations and your customers. We provide a range of products and services to help you make your workplace healthy and safe, as well as providing testing and certification services to help Personal Protective Equipment (PPE) manufacturers meet and demonstrate compliance with relevant legislation. We offer safety management certification for AS/NZS 4801, OHSAS 18001, National (OHS) Self-Insurance and SafetyMAP schemes. A well-structured safety management system gives you an advantage over your competitors in tendering processes.

Training

We understand that business success starts with people. We're one of the world's leading providers of training on standards, management systems and business improvement. Our trainers are recognized as leaders in the field and provide quality training to organizations of all sizes and from all sectors. We offer both public and tailored in-house training across a range of areas including Quality, Environmental and Safety management systems, as well as courses on Food Safety. Whether you're looking to gain a basic understanding of how standards can help your business, want to learn best practice for implementing standards, want to become a qualified auditor, or gain a nationally recognized diploma – we'll support you all the way.

Product certification

BSI offers a full range of testing and certification services including pre-assessments and gap analysis. BSI, a Notified Body for CE marking and owner of the trusted Benchmark, has one of the widest testing and certification capabilities in the world giving you confidence in your products and helping you gain access to global markets.
