Introduction to ISO/IEC 27001 Information Security Management Systems

What is it?

ISO/IEC 27001 information security management gives you the confidence that all your company data is protected. It provides a framework for you to remove the threat of security breach by identifying, measuring and reducing risks. An information security management system is critically important to you and your customers, allowing you to operate and grow with confidence. So start your ISO/IEC 27001 journey today with our introductory course.

Why do I need it?

Your business relies on information and ISO/IEC 27001 is designed to help you protect this information. This course will give you an introduction to the international standard for managing information securely, showing you how to overcome the threat of data loss. And you will learn how your business can build confidence and reputation by demonstrating that all company and customer assets are protected.

How will I benefit?

If you understand the scope of the ISO/IEC 27001 standard, you will also understand how it can impact the way you manage your company and customer data – for the better. An information security management system allows you to demonstrate that you have robust data protection policies in place throughout your business, building customer trust and empowering you to innovate and grow.

What will I learn?

Anyone responsible for working with or managing IT systems can take this one-day course to get ahead in information security. Our ISO/IEC 27001 experts walk you through the standard, explaining its purpose, objectives and controls. You will learn to identify threats to your company data and understand the legal implications of security breach. You will also discover the benefits of implementing ISO/IEC 27001 so you can prepare for your next steps.

How will I learn?

Quickly. We use accelerated learning techniques that encourage interaction and collaboration, keep the course varied and put your learning in context. Your tutors are the best in their field and will make sure your learning needs are met. You can choose between public or in-company courses tailored to your business – whatever delivers the most positive and successful outcome for you.

Where will I learn?

You won't have to travel far to our first class venues. Each location provides the best possible learning environment with great facilities, refreshments and quality accommodation. This way you can focus on and maximize your learning experience.

Who are we?

We are one of the largest and most experienced training and certification bodies with over 60,000 customers in 147 countries. Those who train with us are more likely to make excellence a habit because we don't just check standards; we create and set them.

Why train with us?

We've trained and audited thousands of businesses using the same standards so we can genuinely benchmark performance. And we can take you from beginner to certification quickly then support you with follow-up courses and webinars – and all this for the price of your course.

Did you know?

"ISO/IEC 27001 is becoming a common standard for compliance; two-fifths of large organisations have been asked by their customers to comply with the ISO... ISO/IEC 27001 is increasingly becoming the lingua franca for information security"
