...making excellence a habit.™

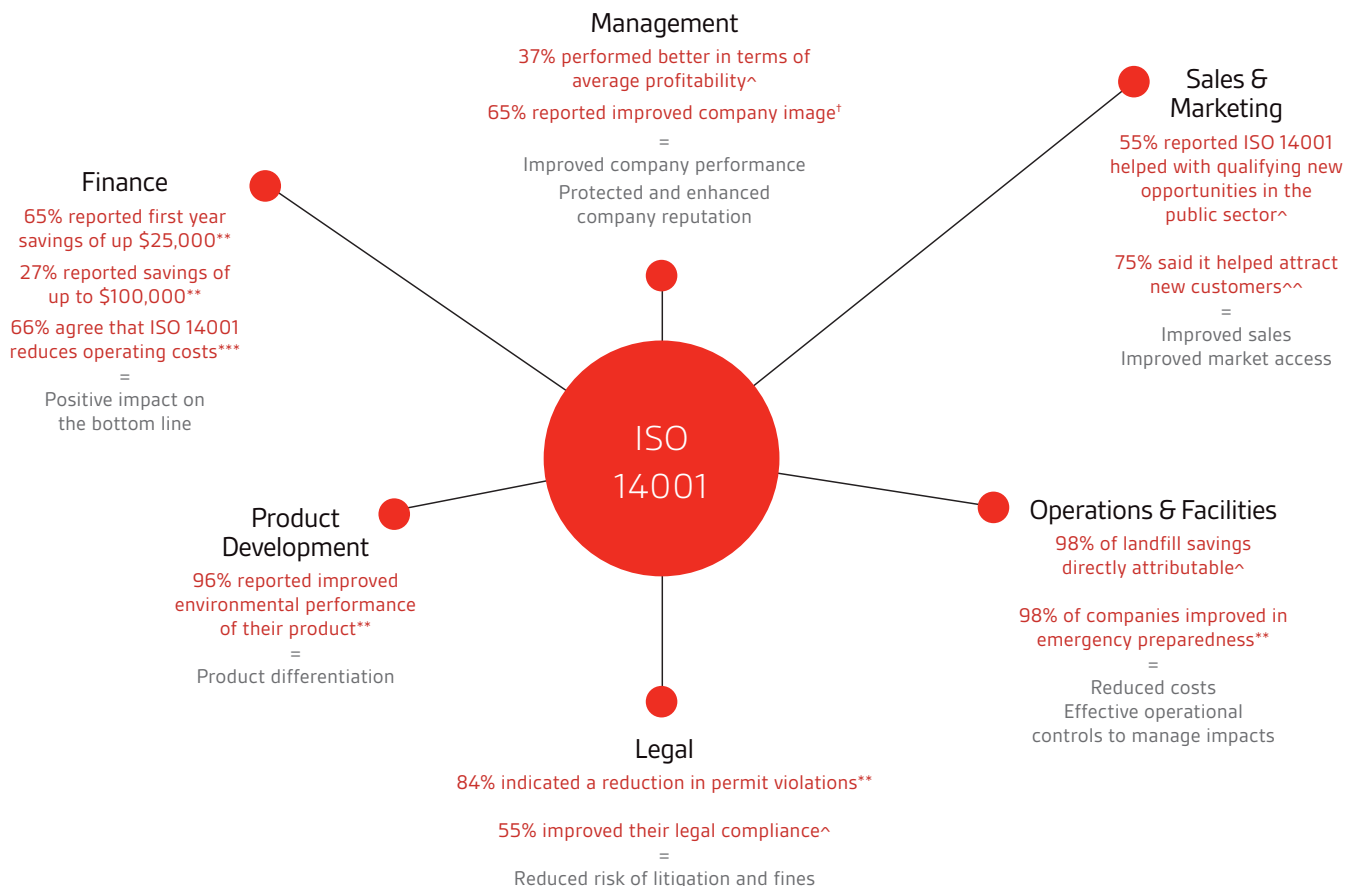

Our ISO 14001 can help you save money, energy and the environment.

One of the key challenges facing businesses is the impact of our activities on the environment and growing in a sustainable way. How we meet these challenges will make a difference to how we do business and the impact on the planet.

ISO 14001 is designed to help your business remain commercially successful, while effectively managing your environmental responsibilities. We can help you identify and control how your business affects the environment, understand the associated legislation and help put in place robust policies to conserve your resources and save money.

Working with us, we can help you deliver considerable environmental, economic and social benefits by providing a framework for managing sustainability, whatever your size, sector or geographical location.

The benefits our certified clients have enjoyed speak for themselves:

* Vs non-certified companies when comparing average profitability (ROA) - Kent Business School – ISO 14001 certification and financial benefits 2008.

ISO 14001 from BSI. Our numbers add up to sustainable growth.

Our knowledge, expertise and drive can make the difference to your organization:

1. We are pioneers. We produced the world's first environmental standard, BS 7750, now ISO 14001, back in 1992. You can trust us to get the standard right and keep it relevant.
2. BSI is renowned for its innovative work in this field, constantly introducing new ways to tackle the challenges presented by the ever-changing issues of sustainability.
3. We continue to lead the way with ongoing developments in environmental management, energy management, corporate social responsibility, product carbon footprinting and biodiversity.
4. You can enjoy the benefits of working with BSI teams who have decades of experience helping businesses embed ISO 14001 in an array of different sectors. They can help you understand the challenges and share their knowledge.
5. We provide end-to-end support, helping you monitor and maintain your excellence through our proprietary software and compliance tools so that you can confidently introduce ISO 14001 into your organization.
6. We talk with, and listen to clients like you every day, asking them what they want and how satisfied they are with our products and services. This way we can make sure we are responding to the needs of our clients as they arise.
7. BSI invests heavily in recruiting and developing the best assessors, who scored on average 9.2/10 in our Global Client Satisfaction Survey.

Keen to commit to better environmental management? BSI can help you plan for today and the future.

ISO 14001 is a world-class management system that provides a structure for managing your environmental performance. By developing and implementing robust policies you can reap rewards such as waste reduction and efficiency improvements.

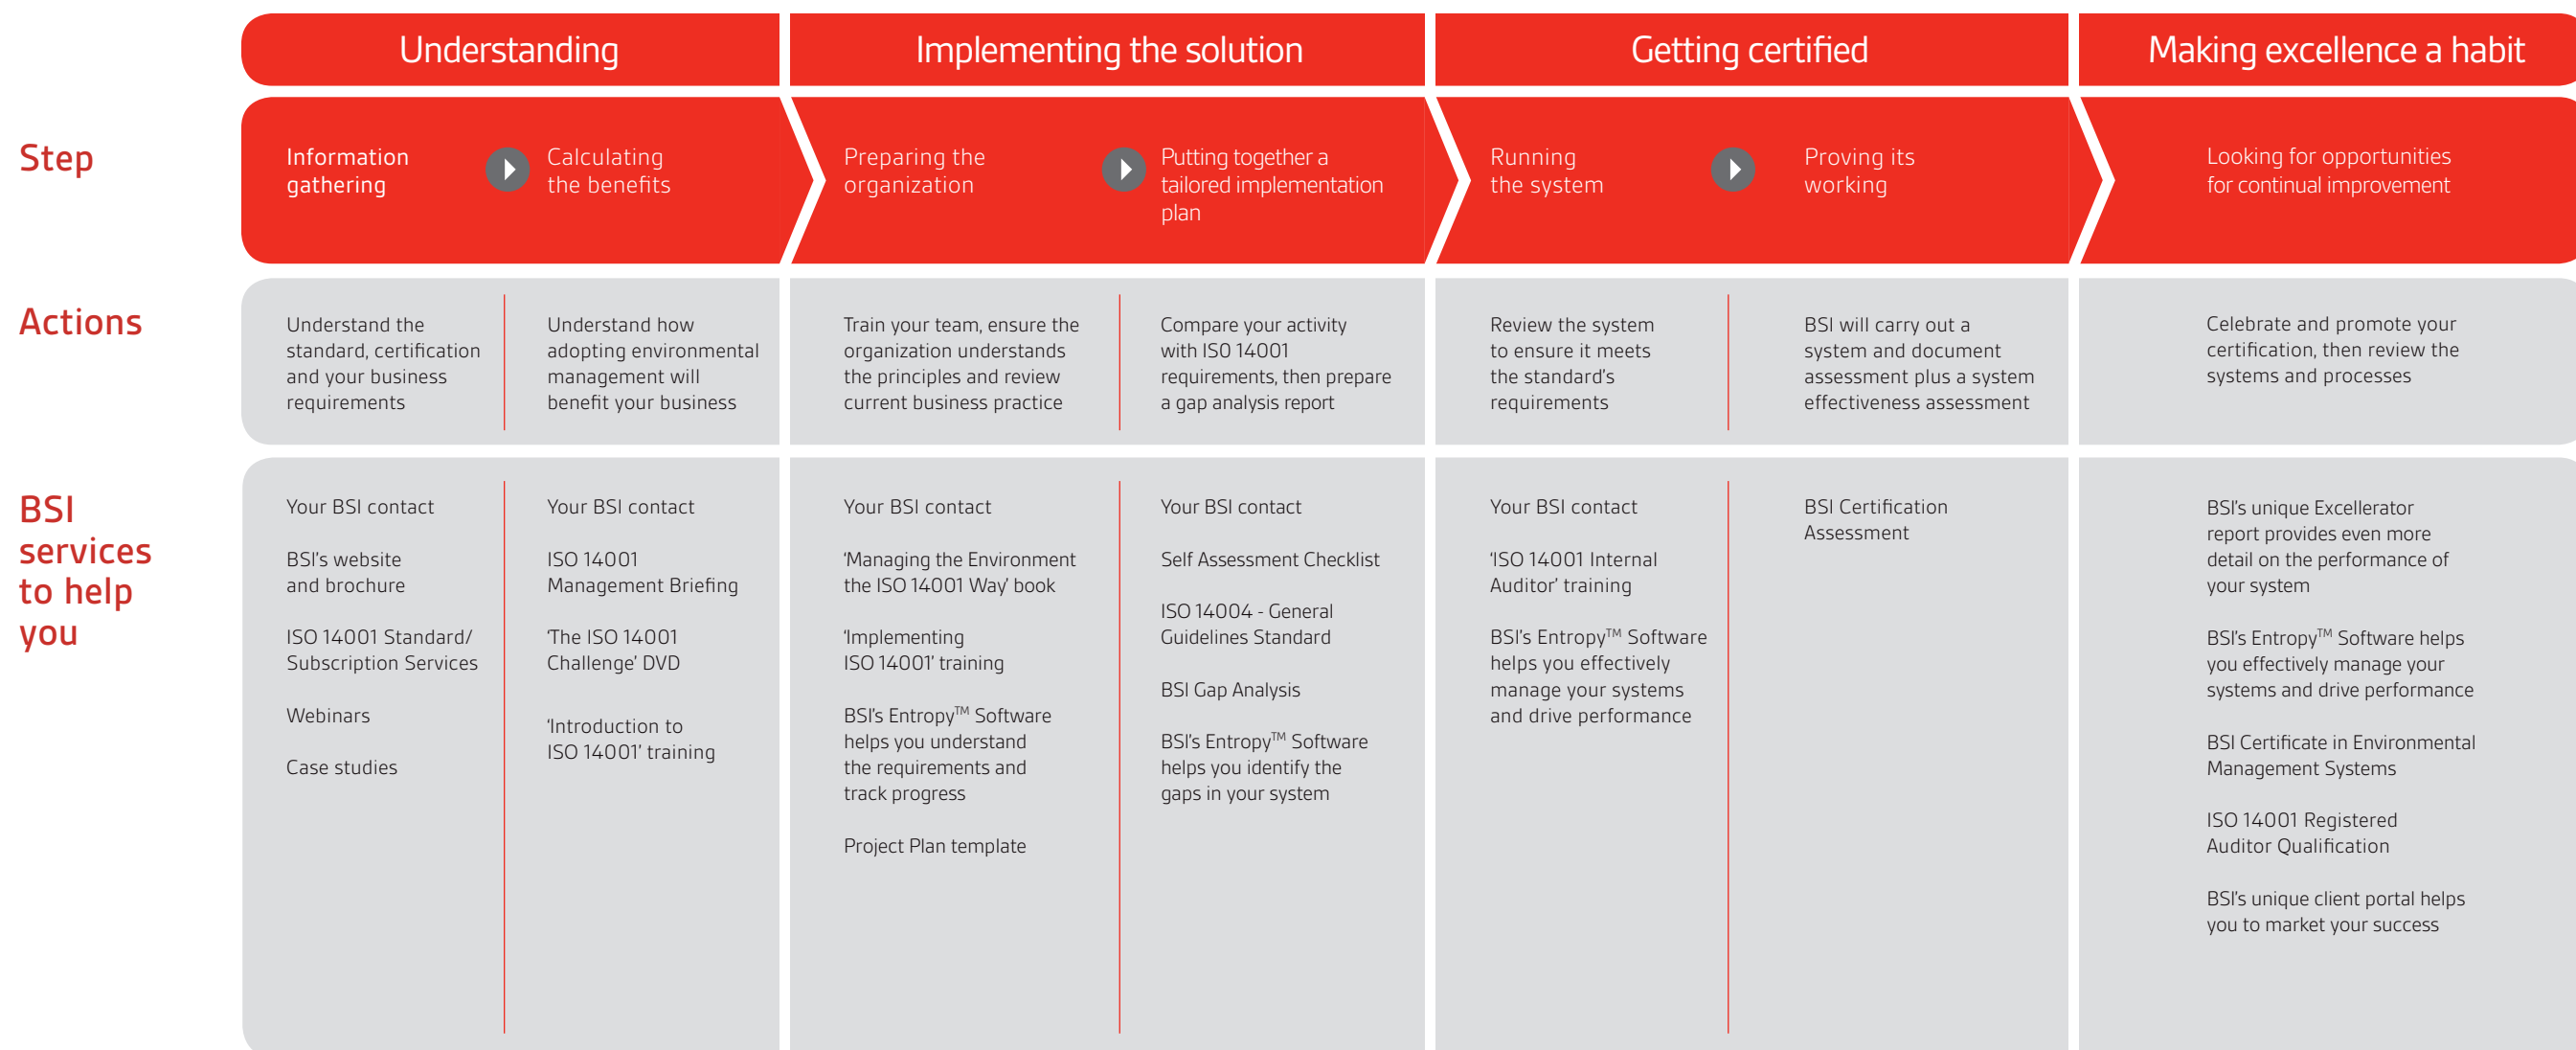

With an effective system in place, you'll be able to meet the increasingly high customer expectations of corporate responsibility, better meet your supply chain requirements and streamline your operations, leading to cost savings.

Research* with SMEs shows:
