

Health and safety a priority?

AS/NZS 4801 and OHSAS 18001 should come first.

bsi.

...making excellence a habit.™

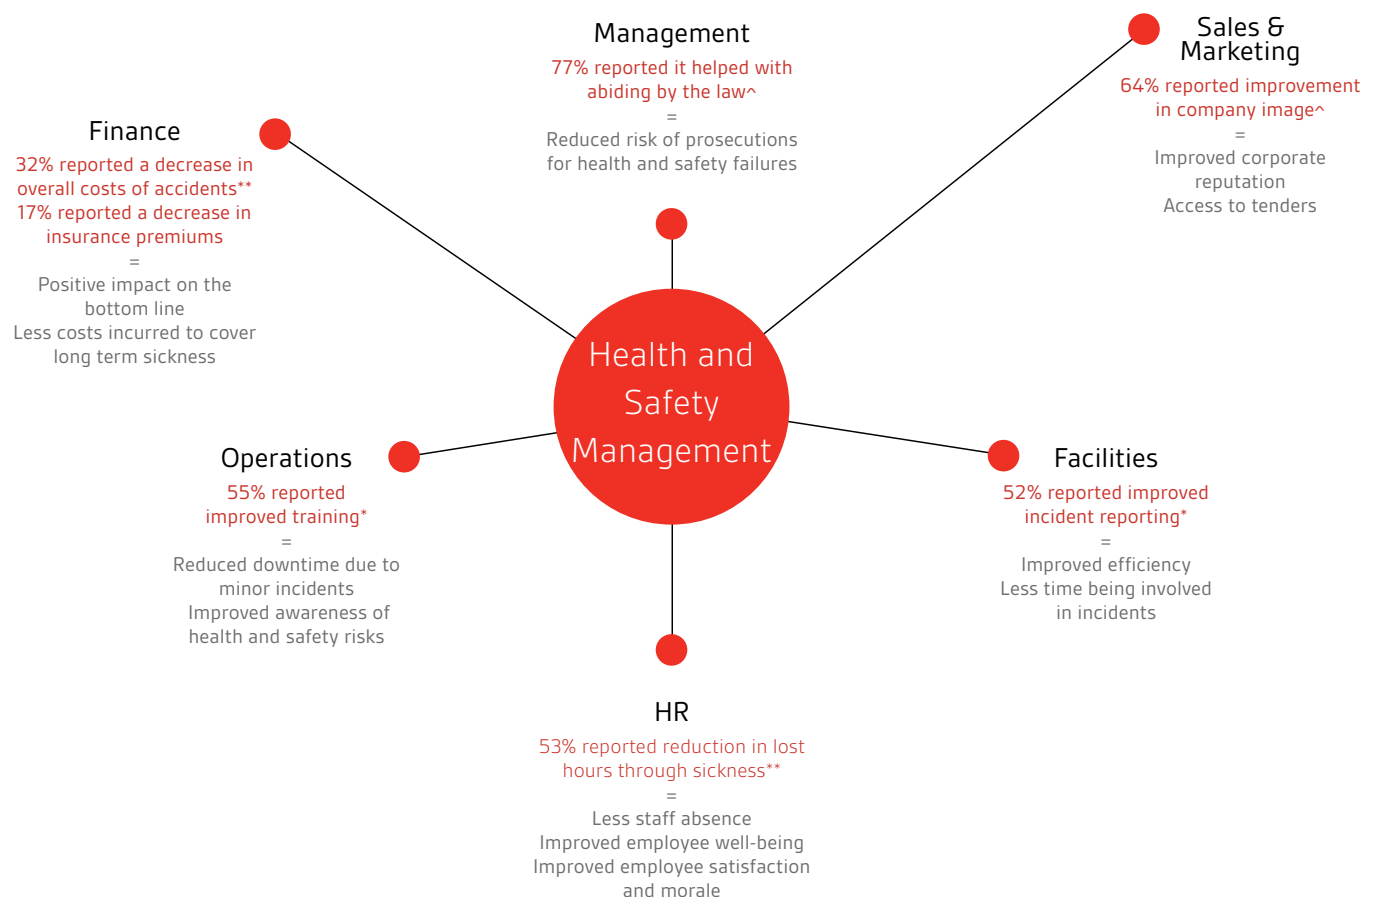

Protect your staff and reputation with OHSAS 18001/ASNZS 4801

Ensuring employee health and safety in the workplace should be every responsible business' priority. With our experience, BSI incorporating NCSI is well placed to support you in developing an occupational health and safety framework that will help you balance your risk, as well as defend and protect your workforce, reputation and brand.

Every year, millions of workers are injured or lose their lives globally. To reduce their risks, companies of all sizes and in all sectors need to put in place a robust safety management system.

AS/NZS 4801 and OHSAS 18001 are suitable for organizations that want to set up formal procedures to manage health and safety risks. Taking a risk-based approach to documentation you will be able to decide what you need for your business.

BSI clients that achieve health and safety certification report major benefits:

In a world of standards we are the experts. We can help you identify and manage workplace risks, cut costs and reduce downtime, improve working conditions and motivate staff. AS/NZS 4801 and OHSAS 18001 will keep you compliant with health and safety management best practice as well as legislation.

We know that every business that invests in AS/NZS 4801 and OHSAS 18001 has to balance budgets and make time to manage the health and safety risks they face. And we know that those risks are as unique as the business you run. That's why we provide packages that can be customized to include only the services and products you need – reducing the cost and complexity of achieving compliance with OHSAS 18001 and AS/NZS 4801.

Why do our customers choose us?

- 80% Reputation
- 50% Quality of service
- 19% Range of products

A simple guide for your AS/NZS 4801 and OHSAS

	Understanding		Implementing solutions		Getting certified		Making excellence a habit
Step	Information gathering	Calculating the benefits	Preparing the organization	Putting together a tailored implementation plan	Running the system	Proving it's working	Looking for opportunities

Why BSI? Because we know a good health and safety management system when we see one.

We can help give you a competitive advantage because:

1. We have a proven track record, having worked with over 70,000 companies globally, and 3,500 in Australia, from small and medium sized businesses, to more than 50% of the combined FTSE 100, Fortune 500 and Nikkei organizations.
2. You can trust us to get the standard right and keep it relevant. BSI works in partnership with industry experts, government bodies, trade associations and consumer groups to gain the widest possible market and industry view to shape standards of excellence for the challenges facing organizations today.
3. You will enjoy the benefits of working with people who have decades of experience helping businesses to understand the benefits of and how to implement AS/NZS 4801, WHS and OHAS 18001 in an array of different sectors, so they understand your challenges.
4. We help you make the most of your management system with our unique Excellerator report. The insight it gives you into your business will accelerate the performance of your management system and benchmark you against other organizations' performance in your sector.
5. We talk with, and listen to clients like you every day, asking them what they want and how satisfied they are with our products and services. This way we can make sure we are responding to the needs of our clients as they arise.
6. BSI invests heavily in recruiting and developing the best assessors, who score on average 9.2/10 in our Global Client Satisfaction Survey.

What else do we do?

Business assurance and quality management

Our quality products and services will help your business perform at its best, from implementing a quality management system to the testing and certification of your products. Investing in quality can help you save money, increase profit, win more business and satisfy more customers. We also offer sector-specific quality management schemes including Food Safety, Construction, Manufacturing, Human Services, Health, Services, Automotive, Medical Devices and IT services.

Environmental management and Sustainability

With the demand for businesses to be 'greener' and for more efficient growth, environmental management is now a key focus for all organizations. BSI's products and services can help organizations not only to become greener and more socially responsible but can help save money and reduce waste. We offer sustainability services across the spectrum of ISO 14001 Environmental Management Systems, GECA ecolabelling (for environmentally preferable products), carbon neutrality, NGER and ISO 14064 GHG verification, AS 4708 Forest Management, AS 4707 Chain of Custody, the Roundtable of Sustainable Biofuel and GRI Sustainability Report verification.

Food safety

BSI believes the world should be supplied safe, quality food and we now offer a broad range of Food Safety certification services after integrating with NCSI. We are Australia's leading food safety certification provider, with extensive auditing capacity and capability to conduct integrated audits for a wide range of Food Safety standards across the entire food and beverage supply chain. Our service solution for food safety includes certification, training, assessment, and supply chain software, providing you and your customers assurance and enabling you to manage risk more effectively.

Training

We understand that business success starts with people. We're one of the world's leading providers of training on standards, management systems and business improvement. Our trainers are recognised as leaders in the field and provide quality training to organizations of all sizes and from all sectors. We offer both public and tailored in-house training across a range of areas including Quality, Environmental and Safety management systems, as well as courses on Food Safety. Whether you're looking to gain a basic understanding of how standards can help your business, want to learn best practice for implementing standards, want to become a qualified auditor, or gain a nationally recognized diploma – we'll support you all the way.

Product certification

BSI offers a full range of testing and certification services including pre-assessment, gap analysis, batch testing and full compliance testing. BSI – a Notified Body for CE marking and owner of the trusted Benchmark – has one of the widest testing and certification capabilities in the world giving you confidence in your products and helping you gain access to global markets.
