British Standards
Online | **BSOL**[™]

raising standards worldwide[™]

Enabling tomorrow's professionals today

Giving your students access to an authoritative, reliable and accessible data source will help them develop the skills required to get ahead in the job market.

BSOL is used by professionals around the world. It is the most comprehensive source of British, adopted European and international standards available.

Accessing and using the authoritative collection of standards in BSOL can help you and your institution:

- Attract new students and funding
- Win research contracts
- Reduce overall costs
- Gain renowned status – recognition amongst your peers and potential students
- Develop courses with the aid of standards
- Embed best practice across your courses and research.

Why choose British Standards Online?

Students excel with BSOL

Students with a knowledge and understanding of standards have a real advantage over those who don't, as standards underpin most of the industry sectors they will be joining when they start their careers (in manufacturing, agriculture, construction, services, aerospace, energy innovation, design ICT and many others).

Giving your students access and embedding standards into course curriculums ensures that your students are prepared and knowledgeable for the demands of the commercial world.

This creates 'industry ready' and more employable students.

Delivering information directly to your desktop 24/7, this growing resource contains bibliographic details of more than 50,000 standards, covering a broad range of disciplines, ensuring that all faculties and standards needs are catered for. BSOL is also accessible via Athens authentication.

Join the club

BSOL is approved by the JISC (assisted) bibliographic dataservices' (JIBS) user group. So you can be assured that BSOL is continually monitored and improved to meet your academic needs.

The BSOL package is available at over 82% of all Universities in JISC Bands A-C.

In the UK over 65% of JISC Universities subscribe to BSOL. On average these institutions each enjoy over £½ million worth of downloads pa.

How does British Standards Online work?

Features of BSOL:

- Coverage of all industry sectors making this a one stop standards portal for your institution
- Access to the leading bibliographic, citation on full-text database of standards, rich in business and research critical content
- Information accessible directly from your desktop. Just browse, search and download the information you need
- Access to all draft standards – enabling students to learn about future standards which they will be working with
- Content updates – daily additions to the service with the latest information at the click of a button ensuring you are always working to the latest standards
- Full text PDFs allowing your students and lecturers to reference accurately and use validated, quality, industry-specific content, saving valuable time and improving grades
- A dedicated BSOL technical support team to help with any technical queries
- 24/7 instant access for international students and lecturers.

BSOL Training team

On hand to help you with your specific training needs. They are available to help you either over the phone, online (via webinars) or to visit your institution.

This is what customers are saying about BSOL...

“ Speed of response to queries is particularly good”

“ I find this an excellent tool. I have access to all standards I might ever need”

“ Very easy system to use and find the standard you are looking for”

“ Very good source of reference and user friendly”
