raising standards worldwide[™]

BSi[®]
British Standards

This is what customers are saying about BSOL...

“The ease of use and simple download capability is excellent, and where I require a standard that is not on our licence then purchasing is discounted and is quick to order. Speed of response to queries is particularly good”

“I find this an excellent tool. I have access to all standards I might ever need, I can put them into categories and I can bookmark them so that I am automatically informed of changes/updates”

Equipping business with knowledge

In today's business environment, knowledge used smartly can create competitive advantage. With the wealth of information in the marketplace, how do you know your organization is tapping into a reliable and authoritative source and getting the information you need when you need it?

British Standards Online (BSOL) is BSI's flagship database of standards. Used by professionals around the world, it is the most comprehensive and authoritative source of British, and adopted European and international, standards.

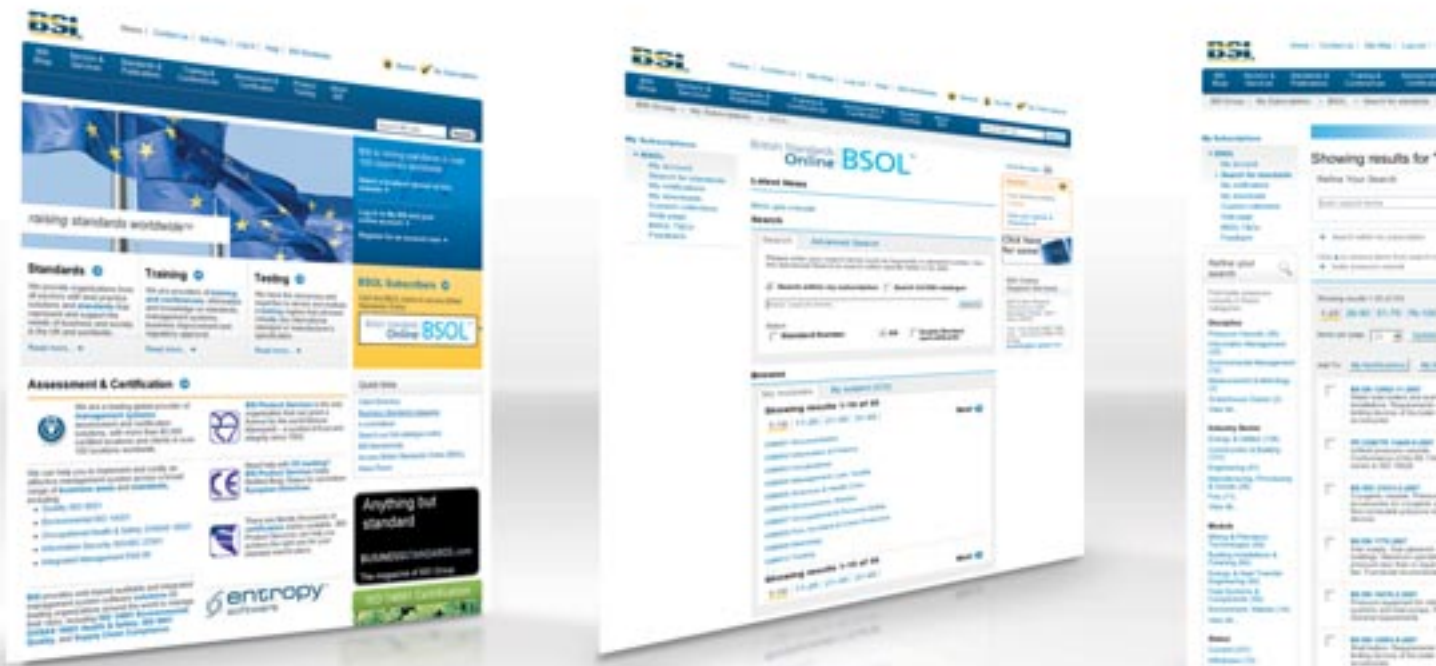

From an international perspective, access to the European Union through British Standards Online is your organization's gateway to Europe. Compliance to legislation such as New Approach Directives and single point access to the official English version of harmonized standards, means you can trade more effectively in those markets, as your products meet the relevant requirements.

BSOL is the authoritative collection of standards, and using standards can help you and your organization to:

- Improve your products or services
- Reduce costs
- Attract new customers
- Increase your competitive edge
- Inspire trust and confidence in your organization
- Improve quality and performance lessening the likelihood of mistakes
- Make products compatible
- Encourage international trade.

Why bring British Standards Online into your business?

Benefits of British Standards Online

The leading bibliographic, citation and full-text database of standards, British Standards Online is rich in business-critical content covering a broad range of disciplines for all industry sectors. Delivering information directly to the desktop, this growing resource contains bibliographic details of more than 45,000 standards and allows you to download the full-text of any current draft or current standard.

British Standards Online provides:

- Information accessible directly from your desktop. Just browse, search and download the information you need to solve a problem or answer a question
- The most comprehensive standards collection maintained, organized, updated, indexed and stored for you – no investment needed on your part
- 24/7 instant unlimited online access so colleagues in different time zones can collaborate – making the development of products, services and projects more effective and successful
- Access to draft standards – a first glance at what is proposed in the standard
- Flexible search fields to help you pinpoint the information you are looking for to carry out your task – be as broad or as specific as you like to ensure that you get the results you want
- Content updates – you know you have the latest information at the click of a button
- ‘My Notifications’ – email alert service so that you are given early notification of changes and don’t miss out on any critical updates to your collection which will save you money!
- Easy-to-read results list and summary pages to help you decide if you wish to download the document
- Annual subscription so that you can budget your information resources to ensure that your users have all the standards they need to meet their organizational objectives
- Subscribe to the entire collection, choose from 55 subject-related modules, or customize your collection (subject to conditions) to match your precise business information needs
- Clear and improved quality images using PDF presentation
- True copy and paste facility (subject to conditions) so that you can use the content within your own internal work
- A dedicated BSOL technical support and customer services team to set up and support you throughout your subscription, and help you with any enquiries on how to use BSOL.

How does British Standards Online work?

All the standards on British Standards Online are classified according to the International Classification for Standards (ICS) and are placed in modules. Your organization may subscribe to the complete collection, or just the pre-defined modules. By simply logging onto the database you'll be able to search the entire BSI collection.

When you find a document of interest, and it is contained within your subscription, you may view it online or download it. If it is outside your subscription an order may be placed for hard copy delivery.

If you want to purchase an electronic version in PDF (single-copy use only) please visit www.bsigroup.com/Shop, register and you may buy and download your document using a credit card.

If you would like to share, view and print any PDF outside of your subscription with colleagues in your organizational network/intranet, please call us on +44 (0)20 8996 7071, or contact our sales team by emailing BSMUsales@bsigroup.com

BSOL has had an upgrade giving:

- Better searching for new and advanced users
- Additional powerful browsing features
- Better results handling
- Better alerting
- A more intuitive user interface
- A new platform for ongoing development.
