

Service Management System (SMS) Requirements - An Introduction to ISO/IEC 20000-1:2011

One day course

ISO/IEC 20000-1 is an IT service management system (SMS) standard. It specifies service provider requirements to plan, establish, implement, operate, monitor, review, maintain and improve a SMS to fulfil agreed service requirements.

This course is designed to equip learners with the knowledge and skills to enable them to appreciate and understand the requirements of ISO/IEC 20000-1 in an organization. An experienced instructor explains the requirements, while hands-on exercises and take-home material provide the foundation upon which delegates can build their experience and develop their competence.

What will I learn?

Upon completion of this training, delegates will be able to:

- Describe the key processes required for an IT Service Management System (SMS)
- Communicate the benefits of an ISO/IEC 20000 IT SMS
- Communicate that it is possible to integrate an ISO/IEC 20000 compliant SMS with other management systems in the service provider's organization
- Adopt an integrated process approach and the PDCA methodology, enabling the service provider to align or fully integrate multiple management system standards.

How will I benefit?

- Improved knowledge of ISO/IEC 20000-1
- Enhanced ability to identify opportunities to maximize the productivity of an organization's IT Services
- Compliance with global best practice

Who should attend?

- IT professionals
- Anyone involved in defining, planning, or implementing an ISO/IEC 20000 IT service management system
- Management representatives
