ISO/IEC 27001:2013
Lead Implementer

Five day course

Implementing a framework based on ISO/IEC 27001:2013 helps you maintain the confidentiality, integrity and availability of information. Successful implementation will improve the protection of your organization's private data to meet market assurance and corporate governance needs.

How will I benefit?

• Identify key benefits to your organization from implementing an effective ISMS
• Develop a plan and determine the resources required for the implementation
• Apply implementation best practice using proven tools and techniques
• Implement a system that enables better response to customer requirements and market changes
• Inspire confidence that your organization maintain the confidentiality, integrity and availability of customer information
• Protect your business and meet stakeholder expectations.

What will I learn?

• A typical framework for implementing ISO/IEC 27001:2013
• Key concepts and requirements of ISO/IEC 27001:2013 from an implementation perspective
• Implementing key concepts and requirements of ISO/IEC 27001:2013
• Specific documented information requirements of ISO/IEC 27001:2013
• Using gap analysis to conduct a baseline review of your current ISMS.

Who should attend?

Anyone involved in leading and implementing an ISO/IEC 27001:2013 ISMS or advising top management of its significance.
