Top tips on making **AS/NZS 4801 and OHSAS 18001** effective for you

Every year we have interactions with tens of thousands of clients. Here are their top tips.

Top management commitment is key to making implementation of AS/NZS 4801 and OHSAS 18001 a success. They need to be actively involved and approve the resources required.

Think about how different departments work together to avoid silos. Make sure the organization works as a team for the benefit of customers and the organization.

Review systems, policies, procedures and processes you have in place – you may already do much of what's in the standard, and make it work for your business. You shouldn't be doing something just for the sake of the standard – it needs to add value.

Speak to your customers and suppliers. They may be able to suggest improvements and give feedback on your service.

Train your staff to carry out internal audits of the system. This can help with their understanding, but it could also provide valuable feedback on potential problems or opportunities for improvement.

And finally, when you gain certification celebrate your achievement and use the **BSI Assurance Mark** on your literature, website and promotional material.

"The earlier that you talk to senior managers the better it will go, so have those discussions early."

Overbury, UK fit-out and refurbishment business

"Independent assessment and certification to a recognized standard is an important way for us to clearly demonstrate our commitment to the safety of our employees and the wider community"

Cambridgeshire Fire & Rescue Service

"Don't try and change your business to fit the standard. Think about how you do things and how the standard reflects on how you do it, rather than the other way round."

Overbury, UK fit-out and refurbishment business

"The BSI Assessor was very knowledgeable and thorough and this will help us achieve continual improvements."

Nippon Gohsei UK Ltd, synthetic chemical company

"The Internal Auditor course has allowed me to approach auditing with a new confidence"

Landis+Gyr UK Ltd, metering solutions company
