Need to protect your information?

Take action with BSI's ISO/IEC 27001.
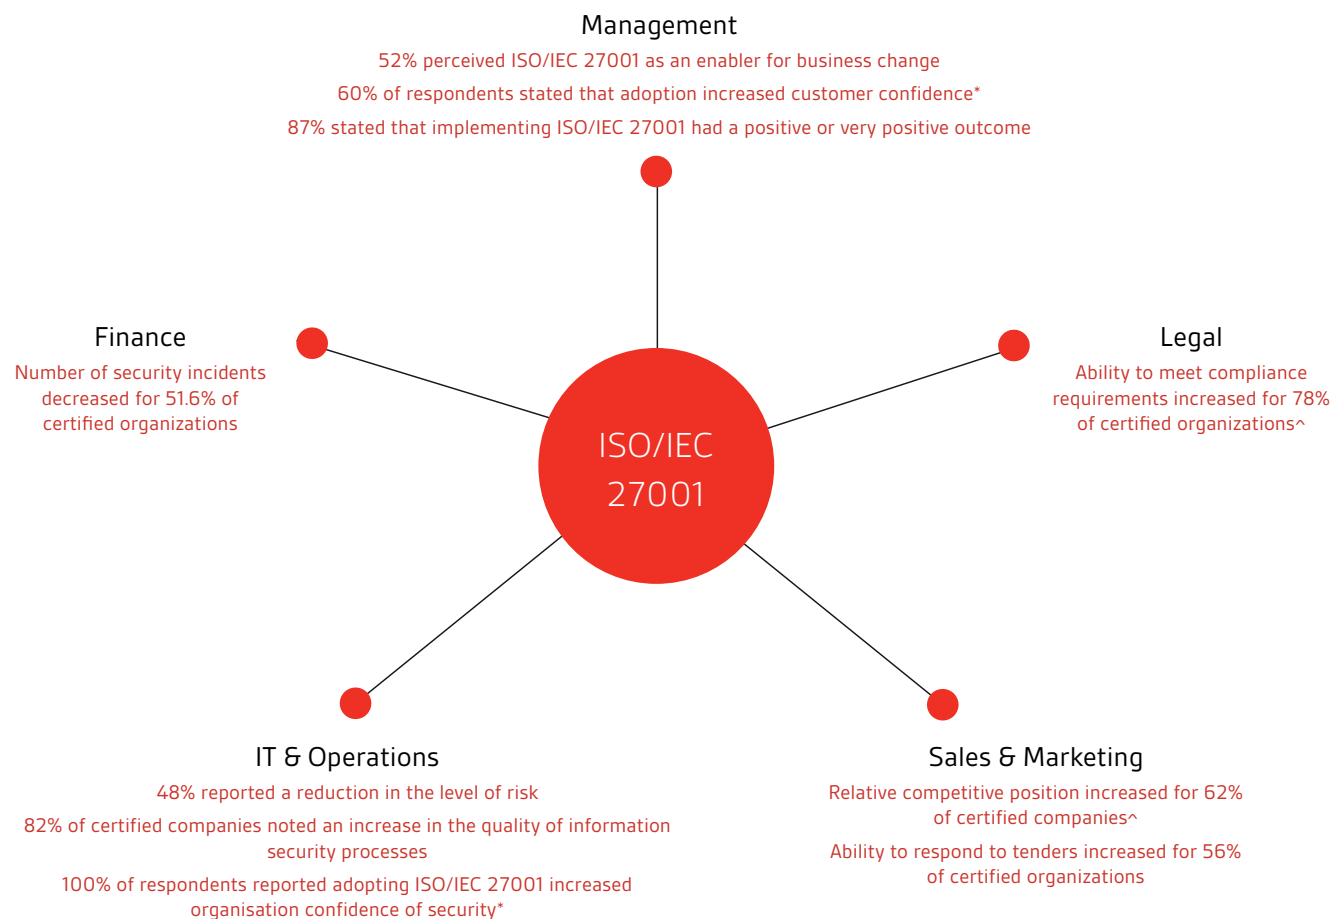

bsi.

...making excellence a habit.™

Put sensitive customer and company information in the safe hands of ISO/IEC 27001.

You simply can't be too careful when it comes to protecting personal records and commercially sensitive information. Work towards safeguarding your company and customer information from intentional or unintentional destruction and unauthorised access through the implementation of an ISO/IEC 27001 compliant information security management system with BSI.

ISO/IEC 27001 will help your business comply with increased government regulation and tough industry specific requirements. And by working with BSI to put such rigorous security measures in place you can reinforce your company's reputation and secure new business.

BSI has the expertise to help businesses safeguard the confidentiality, integrity and availability of information, whether it's written, spoken or electronic. Many companies have worked successfully with BSI to embed the principles of information security into their way of working. As a result senior decision makers in a variety of departments and sectors have reported major benefits:

The benefits our certified clients have enjoyed speak for themselves:

Management
52% perceived ISO/IEC 27001 as an enabler for business change
60% of respondents stated that adoption increased customer confidence*

Finance
Number of security incidents decreased for 51.6% of certified organizations

Legal
Ability to meet compliance requirements increased for 78% of certified organizations^

ISO/IEC 27001

IT & Operations
48% reported a reduction in the level of risk
82% of certified companies noted an increase in the quality of information security processes
100% of respondents reported adopting ISO/IEC 27001 increased organisation confidence of security*

Sales & Marketing
Relative competitive position increased for 62% of certified companies^
Ability to respond to tenders increased for 56% of certified organizations

Information is a valuable organizational asset that can make or break a business. When properly managed it allows organizations to operate with confidence and gives them freedom to grow, innovate and broaden their customer base in the knowledge that all their confidential information will remain that way.

Whether you are new to information security management or looking to enhance your current systems, we have the right training courses, resources and services for you. We provide packages that can be customized to include only the services and products you need – reducing the cost and complexity of achieving compliance to ISO/IEC 27001. We can provide all the support you need, from helping you understand the process through to implementation and achieving certification.

"ISO/IEC 27001 is becoming a common standard for compliance; two-fifths of large organizations have been asked by their customers to comply with the ISO. ISO/IEC 27001 is increasingly becoming the lingua franca for information security."

BSI's ISO/IEC 27001 – your first choice for information security.

BSI is the business standards company that helps organizations make excellence a habit – all over the world. That's our business, enabling others to perform better.

With over 70,000 clients in 150 countries, and 3,500 in Australia, our clients trust BSI to help them perform better, reduce risk and grow sustainably.

Our clients range from top global brands to small ambitious businesses. Our people have taken the time to understand their challenges, and see the opportunities to share learnings.

Clients enjoy the benefits of working with experienced BSI trainers and assessors. Our people will ensure your staff are competent and fully able to implement best practices in risk management that are tried and tested.

We talk with, and listen to clients every day, via our 'Voice of the Customer' survey. We ask them what they want and how satisfied they are with our products and services, so that we make sure we are meeting their expectations and giving them the opportunity to tell us their thoughts.

What else do we do?

Business assurance and quality management

Our quality products and services will help your business perform at its best, from implementing a quality management system to the testing and certification of your products. Investing in quality can help you save money, increase profit, win more business and satisfy more customers. We also offer sector-specific quality management schemes including Food Safety, Construction, Manufacturing, Human Services, Health, Services, Automotive, Medical Devices and IT services.

Environmental management and Sustainability

With the demand for businesses to be 'greener' and for more efficient growth, environmental management is now a key focus for all organizations. BSI's products and services can help organizations not only to become greener and more socially responsible but can help save money and reduce waste. We offer sustainability services across the spectrum of ISO 14001 Environmental Management Systems, GECA ecolabelling (for environmentally preferable products), carbon neutrality, NGER and ISO 14064 GHG verification, AS 4708 Forest Management, AS 4707 Chain of Custody, the Roundtable of Sustainable Biofuel and GRI Sustainability Report verification.

Food safety

BSI believes the world should be supplied with safe, quality food and we now offer a broad range of Food Safety certification services after integrating with NCSI. We are Australia's leading food safety certification provider, with extensive auditing capacity and capability to conduct integrated audits for a wide range of Food Safety standards across the entire food and beverage supply chain. Our service solution for food safety includes certification, training, assessment, and supply chain software, providing you and your customers assurance and enabling you to manage risk more effectively.

Health and Safety

Taking health and safety seriously can achieve maximum return for your employees, your operations and your customers. We provide a range of products and services to help you make your workplace healthy and safe, as well as providing testing and certification services to help Personal Protective Equipment (PPE) manufacturers meet and demonstrate compliance with relevant legislation. We offer safety management certification for AS/NZS 4801, OHSAS 18001, National (OHS) Self-Insurance and SafetyMAP schemes. A well-structured safety management system gives you an advantage over your competitors in tendering processes.

Training

We understand that business success starts with people. We're one of the world's leading providers of training on standards, management systems and business improvement. Our trainers are recognized as leaders in the field and provide quality training to organizations of all sizes and from all sectors. We offer both public and tailored in-house training across a range of areas including Quality, Environmental and Safety management systems, as well as courses on Food Safety. Whether you're looking to gain a basic understanding of how standards can help your business, want to learn best practice for implementing standards, want to become a qualified auditor, or gain a nationally recognized diploma – we'll support you all the way.

Product certification

BSI offers a full range of testing and certification services including pre-assessment, gap analysis, batch testing and full compliance testing. BSI – a Notified Body for CE marking and owner of the trusted Benchmark – has one of the widest testing and certification capabilities in the world giving you confidence in your products and helping you gain access to global markets.
