

The new ISO 9001

BSI's Best Practice Transition Journey

Approaching change

ISO 9001 - Quality Management System - Transition Journey

> ISO 9001:2015 Best Practice Journey from Revision to Transition

ISO 9001, the world's most popular standard for quality management is being revised to ensure that it maintains its relevance in today's market place and in the future. Through our experience of developing standards and managing thousands of client interactions every year, BSI knows the best practice way of transitioning to a new standard smoothly. Our comprehensive suite of training and support material has been structured to guide you and your organization through the revision process, every step of the way.

Buy a copy of the Final Draft International Standard and/or ISO 9001 Standard on publication as soon as possible Understand some of the new requirements in more detail, visit the BSI website for the latest whitepapers The Importance of Leadership Process versus procedures The Importance of Risk in Quality Management Understand how leadership is being incorporated in Understand the difference between a process and a all new ISO Standards and what this means in procedures approach and how this relates to the new Understand how to establish a systematic approach to practical terms High Level Structure risk and the benefits this will bring Developed by experts, our range of transition courses ensures you fully understand the changes and the core requirements **Deep Dive** Senior Management Briefing **Transition** Implementing Changes **Auditor/Lead Auditor Transition** This executive session highlights the benefits Learn about the new ISO high level structure (HLS) Discover how to apply the key changes to ISO 9001:2015 Exploring in greater detail the 4 critical areas of the Combined with the transition course, you'll not only of an effective QMS and the leadership and the key changes between ISO 9001:2008 and and formulate a transition action plan for new standard; Process Approach, Risk-based Thinking, learn about ISO 9001:2015 but also build up your responsibilities ISO 9001:2015 External Provision and Leadership. your organization auditing skills BSI has developed a comprehensive toolkit to help you understand the changes and implement them in your organization **Transition Guide** Self-Assessment Checklist Mapping Guide **Internal Communications Pack** Provides an overview of the new High Level Structure Helps you assess your organization's readiness for an An overview of the changes, deletions, new or enhanced To help you communicate the changes and new ISO 9001:2015 certification assessment and identify (HLS) and the requirements of the requirements between ISO 9001:2008 and the requirements within your organization including DIS ISO 9001 new standard any gaps leadership briefing and presentation BSI has a wide range of services to help you implement the changes and understand how well you're doing **GAP Assessment** BSI Action Manager or Entropy™ Certification to ISO FDIS 9001:2015 Transition Assessment Manage your transition as effectively as possible with BSI can carry out an optional 'gap-analysis' to help you BSI will offer unaccredited certification against the You will be able to transition to the new standard once business improvement software including Action FDIS when published around July 2015 for clients identify any weaknesses or omissions prior to it is published, ensuring that you quickly benefit from formal assessment Management, GAP Assessment and Training Management. who want to transition early. the new standard.

> 5 Key Steps for a Successful Transition
