

BSI Training Academy

bsi. connected
learning **live**
bringing the classroom to you

BSI Connected Learning Live is a real-time, online way of training that delivers our world class learning programmes to you through an engaging and interactive experience, regardless of your location.

This is an ideal alternative to the typical classroom setting for professionals who do not have the budget or time for travel, or just prefer the convenience of attending a course online.

Although your tutor may be far away and your fellow delegates in different locations, we bring you together in a virtual classroom on the web. Through audio and video streaming, the tutor can interact with delegates and share materials as if you were in a real classroom. You can also interact fully with your fellow delegates during these sessions.

bsi.

...making excellence a habit.™

Your Connected Learning Live courses

Some of our most popular training courses are now available through BSI Connected Learning Live. These include courses for the following subjects and management system standards*:

ISO 9001 Quality Management

AS 9100 Quality Management for Aerospace

ISO 14001 Environmental Management

IATF 16949 Quality Management for Automotive

ISO/IEC 27001 Information Security

ISO 22301 Business Continuity Management

ISO 13485 Quality Management for Medical Devices

For the latest list of courses available via Connected Learning Live, please visit bsigroup.com/en-au/training

*Please note – not all public training courses are available as BSI Connected Learning Courses

The advantages of BSI Connected Learning Live

Although your tutor may be far away and your fellow delegates in different locations, we bring you together in a virtual classroom on the web. Through audio and video streaming, the tutor can interact with delegates and share materials as if you were in a real classroom. You can also interact fully with your fellow delegates during these sessions.

True Class Environment

Our expert tutors and all of the students interact real-time on our industry-leading web learning platform which creates an engaging and real class environment. You can see and talk with the instructor and your classmates throughout the sessions.

Comprehensive Learning Experience

Our instructors share their in-depth knowledge and create a rich learning experience using a combination of instruction, hands-on group exercises and case studies. You'll also receive the same level of quality instruction as our public training courses. Classes are kept small so you get the right level of personal attention.

Cost Savings

You can take classes at work, home, or anywhere there's an internet connection, thereby eliminating travel costs, such as car, air, and hotel, saving you and your company money and time.

Achieve professional recognition

When you successfully complete one of our Connected Learning Live courses you will receive and internationally recognized BSI certificate to celebrate your achievement.

Convenience and Flexibility

Sessions are kept short so you can have time in your day to do the other things you need to do. They typically run for two to three hours over a period of days.

How it works

For the class:

The course is hosted on a web meeting platform. This includes helpful features to maximize your learning experience such as:

- Breakout rooms
- Whiteboard/drawing
- Ability to share documents and video on the fly
- Polls/voting and hand-raising
- Chat (public and private)
- File downloads

BSI Connective Learning Live courses have been structured in a convenient format to help balance your training needs with your everyday work commitments.

Courses are typically delivered in 2 to 3 hour sessions.

For the delegate:

What you need to ensure you get the best learning experience

- A PC or tablet with high-speed internet
- A webcam
- A USB headset

To optimize your learning experience, learners are asked to connect to the class from a quiet setting, free from interruption.

What you will receive before the course

- Student guide on how to connect
- Course Booklet and Materials

Why make BSI your first choice for training

At BSI we create excellence by driving the success of our clients through standards. We help organizations to embed resilience, helping them to grow sustainably, adapt to change and prosper for the long term. We make excellence a habit.

For over a century our experts have been challenging mediocrity and complacency to help embed excellence into the way people and products work. With 80,000 clients in 182 countries, BSI is an organization whose standards inspire excellence across the globe. That's why we're best placed to help you understand, implement and benefit from standards.

We provide a proven pathway to success, wherever you are in your training journey. Build your knowledge, learn how to implement and audit management systems, or discover tools and techniques to make your business more resilient – whatever your requirements we have the right solution for you. You'll also learn with your peers; we'll discuss real-world challenges and share best practice based on over 100 years' experience.

Our products and services

We provide a unique combination of complementary products and services, managed through our three business streams; Knowledge, Assurance and Compliance.

Knowledge

The core of our business centres on the knowledge that we create and impart to our clients. In the standards arena we continue to build our reputation as an expert body, bringing together experts from industry to shape standards at local, regional and international levels. In fact, BSI originally created eight of the world's top ten management system standards.

Assurance

Independent assessment of the conformity of a process or product to a particular standard ensures that our clients perform to a high level of excellence. We train our clients in world-class implementation and auditing techniques to ensure they maximize the benefits of standards.

Compliance

To experience real, long-term benefits, our clients need to ensure ongoing compliance to a regulation, market need or standard so that it becomes an embedded habit. We provide a range of services and differentiated management tools to facilitate this process.
