About BSI	35

Whatever your area of responsibility, you'll find the standards and courses that can help you to improve your business here:

Welcome to BSI Training.

About us

BSI is the business standards company that helps organizations all over the world make excellence a habit. For more than a century we have been challenging mediocrity and complacency to help embed excellence into the way people and products work.

That means working with businesses on how to improve performance, reduce risk and achieve sustainable growth.

Why train with us?

BSI is an industry thought leader in training to international compliance standards. Our training experts provide top quality training to organizations of all sizes and in all sectors.

We're one of the world's leading providers of business improvement training, offering a range of solutions to keep your staff qualified and updated. We aim to be first to market to keep your business relevant and provide you with the opportunity to enjoy first mover advantage by adopting new standards. From understanding how a standard can help your business, to implementing, monitoring and auditing your compliance to that standard, we can support you all the way.

Our trainers

Turn our experience into your expertise with our industry leading professionals. Our trainers are recognized as leaders in their field, and have specialist subject experience having implemented the standards themselves. They are trained to understand and meet your different learning needs, and they have years of industry experience.

They know what is required in an audit – so they'll train you to meet it. They know the thinking behind the standard – so they can convey that knowledge to drive and inspire your people. It's one of the reasons why our courses have outstanding pass rates and why 99% of our course delegates would recommend us.

more about
our nationally
recognized
diplomas

Our approach

Within our training courses we use accelerated learning techniques to help you progress naturally and quickly. We encourage interaction and collaboration because the more involved you are, the more positive the outcome.

We also keep the courses varied and put your learning in context to give you an enjoyable and successful learning experience.

Our accreditation

Demonstrate the expertise you have achieved through training with us by attending one of our globally and nationally recognized courses.

As a Registered Training Organization (RTO) we're able to offer both nationally recognized units of competence and diploma qualifications. We also have many courses accredited globally by Exemplar Global (previously known as RABQSA) and IRCA (International Register of Certified Auditors).

Our venues

We deliver five star learning at first class venues. These are selected to make sure you learn in the best possible environment with great facilities and refreshments. This way you can focus on and maximize your learning experience. Any of our public courses can be tailored to your specific needs and delivered at your premises making it even more convenient for you.

We are adding new courses and locations all the time, so if you can't find the course you want in the location you want, contact us on **1300 730 134**.

99% of course delegates say they would recommend BSI. Here are some of their reasons for doing so:

- Experience and breadth of training
- Brand association
- Choice of course style
- Ease of booking
- Quality course materials
- Reputable venues

1. Adelaide, SA
2. Brisbane, QLD

8. Townsville, QLD

In-house Training.

Designed for you

When you choose BSI In-house training, you can select a course 'off-the-shelf' from our extensive range. You can then ask us to adapt a course to your specific needs, or you can request a completely tailored course to be developed for you.

We will take the time to understand your organization's learning needs so that we can develop a tailored training solution that satisfies your business objectives. Working with you, we'll help to develop your people, improve processes and enhance your systems.

Whichever option you choose, you can be sure that you will be trained by a trainer who has practical experience under their belt and who understands your marketplace.

"The course was very well received. It was well structured with an optimum mix of interesting activities to ensure learning."

Jay Nair, Bluescope Steel

National Recognition

As well as delivering both our diploma pathways as in-house solutions, our Management Systems Internal Auditor course can be delivered on your premises and have nationally recognized units of competence attached to it. Following the course your staff will just need to complete the additional self paced learning and assessment tasks to gain the following units of competence:

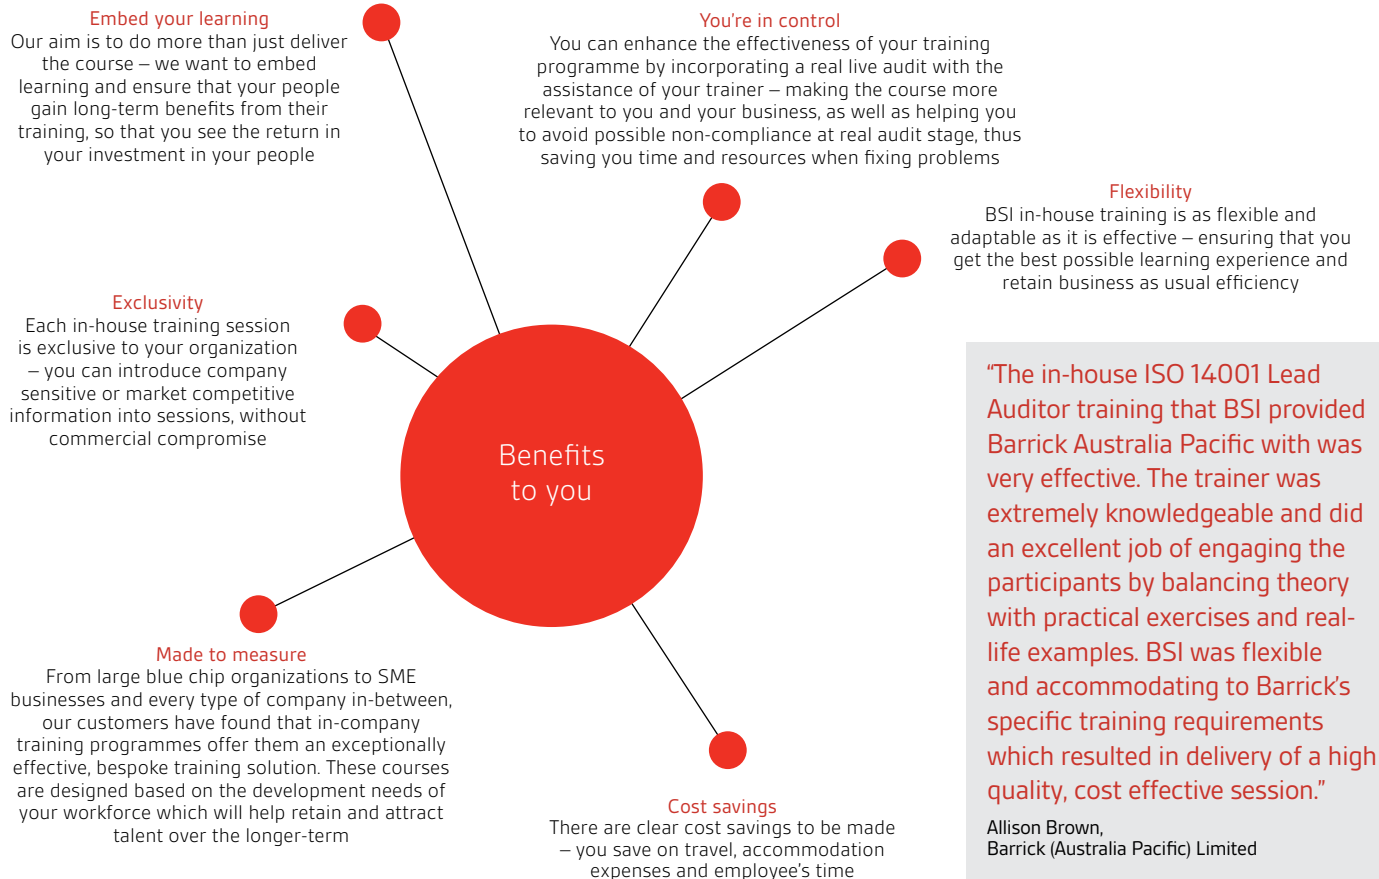

Exclusive to in-house

All our courses and qualifications can be delivered on an in-house basis, but we also offer many courses exclusively in-house. These include:

Management Briefings

Our half day and one day management briefings give a high level introduction to management systems and the benefits of using standards. Aimed at senior management or board level, the workshops provide an understanding of the strategic benefits of standards and how you can use management systems to achieve your goals.

Diploma of Management.

BSB51107

Our new Diploma of Management BSB51107 is designed to help you manage your team effectively and add value to your processes. You'll learn how to implement operational plans and continuous improvement strategies while managing risks within your business. You'll gain vital leadership skills learning how to plan, carry out and evaluate the work of both you, and your team.

How it works

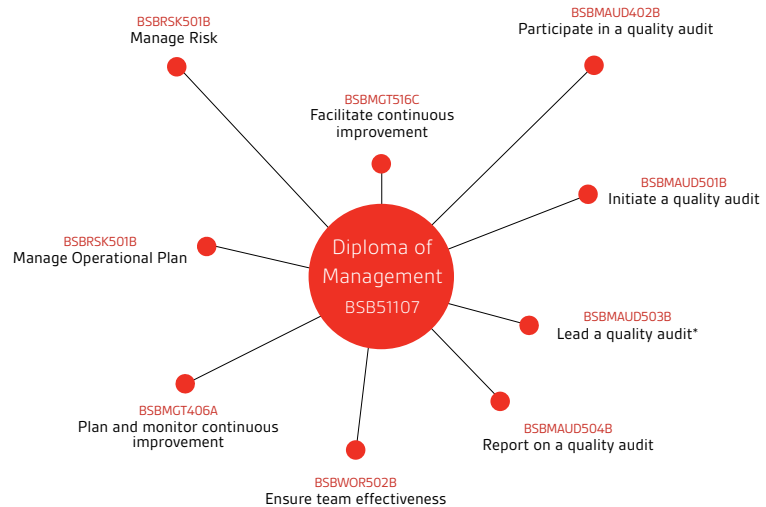

To achieve the Diploma of Management BSB51107 you just need to complete eight nationally recognized units of competence. Below are the units that we have chosen for our professional development pathway*.

Attend a five day lead auditor training course in ISO 9001, ISO 14001, AS/NZS 4801 or Food Safety to gain the theory and practical skills to perform audits. To prove the practical application of the skills you learnt in the classroom, and to contribute to the associated RTO units of competence, you'll be

assigned a qualified assessor to provide feedback and guidance as you work through self paced learning and assessment tasks.

Finally just attend our two day Risk Management & Operational Planning course and learn how to implement plans to effectively manage risks within your business. By submitting your final assessment you'll gain the final unit of competence required to make up the diploma. Once a BSI assessor has completed a final review of all your assessments and evidence you'll be awarded your Diploma of Management BSB51107.

Complete the assessments and receive the following nationally recognized units of competence:

Our Flexible Approach

From the date of enrollment you have 12 months to complete the Diploma in full. Our flexible modular format means you can spread your training days out, attending the lead auditor course in a variety of ways - from sitting the five days in one, to taking the two day requirements course and then adding the auditing and team leader modules at a later stage. **See page 15** for further details on how our Lead Auditor courses work.

Recognition of Prior Learning (RPL)

If you've already got significant industry experience and access to the evidence to prove it, then we can assess your skills and knowledge through our Recognition of Prior Learning (RPL) pathway. This can remove the requirement of attending our formal training courses.

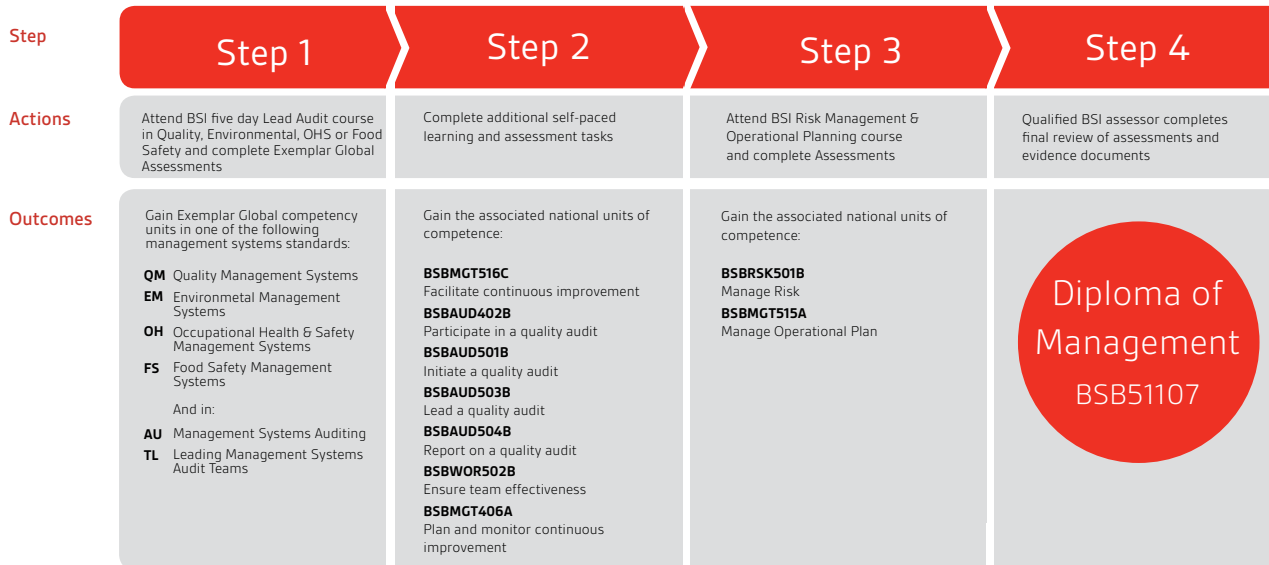

Speak to one of our experts on **1300 730 134** for more information.

How to book

You can choose to book for the diploma in full or book for the modules separately. Just choose the Management System Lead Auditor course and the initial dates you'd like to attend from our catalogue and speak to one of our training team on **1300 730 134** to book. Let BSI develop your career.

A simple guide to the Diploma of Management BSB51107 journey with BSI

*BSBAUD503B Lead a quality audit is an optional unit and isn't required to be awarded the Diploma of Management

Diploma of Quality Auditing.*

BSB51607

Our new Diploma of Quality Auditing* BSB51607 is designed for anyone who wants to build a career in auditing. You'll gain the skills to understand the entire audit process, report on feedback and facilitate continuous improvement. We'll give you the experience and assistance to take your audit skills to the highest standard. With a nationally recognized qualification you'll gain the recognition to take your career to the next level.

How it works

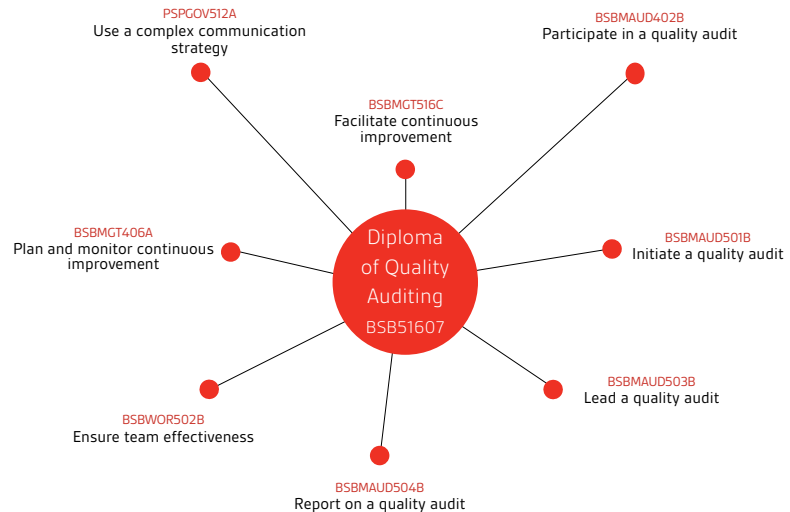

To achieve the Diploma of Quality Auditing* BSB51607 you just need to complete eight nationally recognized units of competence. Shown below are the units that we have chosen for our professional development pathway.

Attend a five day lead auditor training course in ISO 9001, ISO 14001, AS/NZS 4801 or Food Safety to gain the theory and practical skills to initiate and effectively lead the entire audit process. You'll be assigned a qualified assessor to provide feedback and guidance as you work through self paced learning and assessment tasks. These prove the practical application of the

skills you learnt in the classroom and contribute to seven of the eight associated RTO units of competence. Finally just attend our one day Audit Master Class course and learn how to take your audit skills to the next level. By submitting your final assessment you'll gain the final unit of competence required to make up the diploma. Once a BSI assessor has completed a final review of all your assessments and evidence you'll be awarded your Diploma of Quality Auditing BSB51607.

*The term quality auditing refers to best practice auditing and is relevant for a range of management systems including ISO 9001, ISO 14001, OHS and Food Safety Management Systems.

Complete the assessments and receive the following nationally recognized units of competence:

Our Flexible Approach

From the date of enrollment you have 12 months to complete the Diploma in full. Our flexible modular format means you can spread your training days out, attending the lead auditor course in a variety of ways - from sitting the five days in one, to taking the two day requirements course and then adding the auditing and team leader modules at a later stage. See [page 15](#) for further details on how our Lead Auditor courses work.

Recognition of Prior Learning (RPL)

If you've already got significant industry experience and access to the evidence to prove it then we can assess your skills and knowledge through our Recognition of Prior Learning (RPL) pathway. This can remove the requirement of attending our formal training courses.

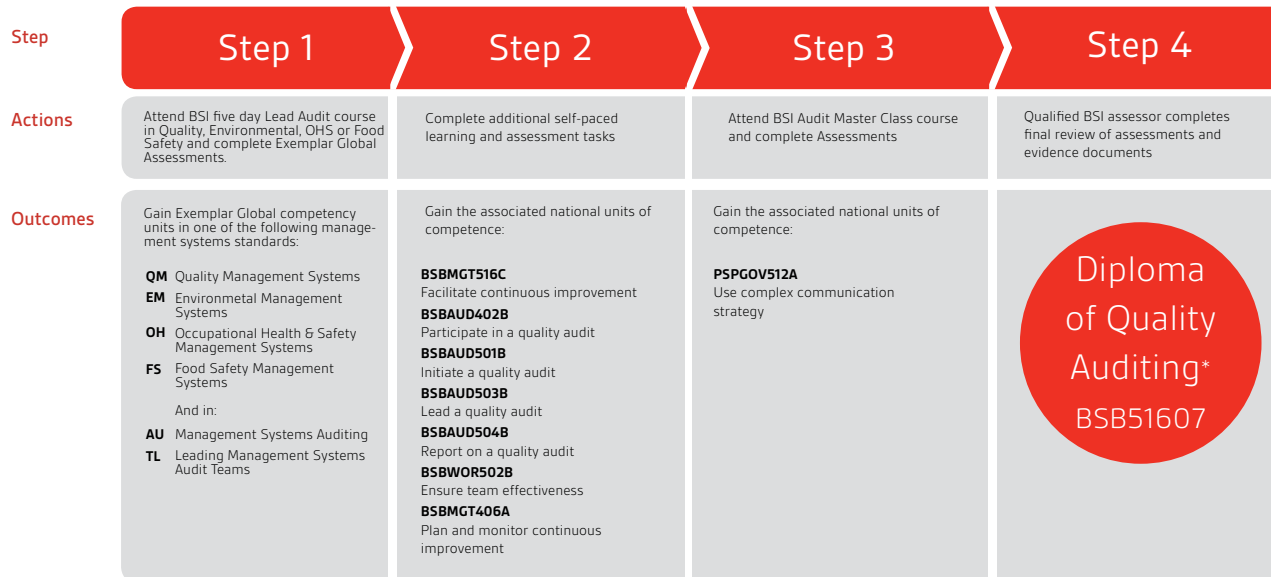

Speak to our training team on **1300 730 134** for more information.

How to book

You can choose to book for the diploma in full or book for the modules separately. Just choose the Management System Lead Auditor course and the initial dates you'd like to attend from our catalogue and speak to our training team on **1300 730 134** to book. Start your journey to auditing expert today.

“The Lead Auditor training I completed with BSI has equipped me with both the knowledge and practical skills to effectively meet the demands of my role.”

Carmen Quintana , Manager Quality
NSW West Region, Transfield Services Limited

Flexible Auditor and Lead Auditor Courses.

ISO 9001 • ISO 14001 • AS/NZS 4801 • ISO 22000

Our flexible courses allow you to become an auditor or lead auditor at your own pace.

How it works

After attending one of our two day Requirements courses, you can upskill yourself with modules in Management Systems Auditing and Leading Audit Teams, either immediately or at a later date.

Exams are given at the end of each module and delegates who successfully complete the courses and pass the relevant exams receive a BSI Certificate of Attainment for each of the separate competency units taken, also certified by Exemplar Global.

Exemplar Global TPECS (Training Provider Examination Scheme) is a competency based training certification designed to give you the skills to get the most out of your management system, and prove your competence by gaining globally recognized levels of attainment.

Valuing both your time and education

Less time out of the office and more time to implement your classroom learning.

- Reduced travel costs
- Exam retakes are taken electronically

Learn at your own pace

Our flexible format gives you different attendance options. Achieve your learning goals with either one or three separate courses, or take all five days together.

Expand your qualifications in just 2 days

Once you have achieved competency as Lead Auditor in any of our schemes, you only need two more days of a Requirements course to obtain competency as a Lead Auditor in another management system.

Understand the standard with our 2 day Requirements courses:

ISO 9001 Quality - QM: 2 days
ISO 14001 Environmental - EM: 2 days
OH&S Management - OH: 2 days
Food Safety Management - FS: 2 days

Learn to perform internal audits:

Management Systems Internal Auditor
AU: 2 day

Learn how to lead audit teams:

Leading Audit Teams
TL: 1 day

Medical Devices.

ISO 13485 & CE marking

Our ISO 13485 quality management training will help you to demonstrate your ability to provide medical devices and related services that consistently meet customer requirements and regulatory requirements.

Our CE marking courses will give you solid understanding of the medical devices regulatory requirements and directives to help you sell your products within the EU.

Introduction to: ISO 13485

Compare ISO 13485, its requirements to ISO 9001 and the Food and Drug Administration's Quality System Regulation. Find ways you can increase efficiency and cost savings through quality management, while understanding how you can better meet customer and regulatory requirements.

04	September 2014	Sydney
16	March 2015	Sydney

Duration: 1 Day **\$985 (inc GST)**

Implementing: ISO 13485

Gain an introduction to the concepts needed to understand, develop, and implement a quality management system as outlined in ISO 13485. Work with our training experts to gain the skills to lead processes, develop policies and measure your progress towards ISO 13485 compliance, while achieving and maintaining best quality management practice and gaining customer confidence.

01-02	May 2014	Sydney
11-12	August 2014	Sydney
15-16	September 2014	Melbourne
12-13	November 2014	Sydney
16-18	March 2015	Sydney

Duration: 2 Days **\$1585 (inc GST)**

ISO 13485: Clause By Clause

This two day course has been designed to provide an in depth understanding of ISO 13485. On completion of this training, participants will be able to apply their knowledge to the development of a ISO 13485 compliant quality management system and help maintain on going certification of their organization.

03-04	April 2014	Melbourne
07-08	April 2014	Sydney
07-08	August 2014	Sydney
08-09	December 2014	Sydney
25-26	February 2015	Sydney

Duration: 2 Days **\$1585 (inc GST)**

Internal Auditor: ISO 13485

Learn more about the responsibilities of an ISO 13485 auditor and how your business can maintain compliance, and get the most out of your certification. The course covers the entire audit process, giving you the skills to effectively plan, prepare and conduct an audit, and the confidence to report on audit results and lead corrective follow up actions.

09-10	April 2014	Melbourne
05-06	November 2014	Sydney
10-11	November 2014	Sydney

Duration: 2 Days **\$1585 (inc GST)**

Lead Auditor: ISO 13485

Review ISO 13485 and build on the principles of process auditing in accordance with quality management system standards. Work with our training experts to understand the entire audit process at lead level from planning, to managing and reporting on audit results. Learn about the concepts of risk management (ISO 14971) and its integration with the audit approach.

22-26	September 2014	Sydney
16-20	March 2015	Sydney

Duration: 5 Days **\$3885 (inc GST)**

Introduction to: CE marking

Gain an introduction to the Medical Device Directives (MDD, AIMDD, IVDD) and understand their background and key features. On completion of this course you'll be able to make informed decisions on meeting the requirements of medical device directives, identify the steps required to reduce the risks in the regulatory process and bring products to the EU market much quicker.

14	April 2014	Sydney
29	September 2014	Sydney
10	March 2015	Sydney

Duration: 1 Day **\$985 (inc GST)**

Medical Devices CE marking

Become confident in understanding the legal and operational aspects of European regulatory and standards principles and ensure your devices quickly meet safety quality standards. Learn how to identify risks and report product changes to ensure the quality and safety of your products.

Duration: 3 Days **In-house**

Introduction to: CE marking for the In Vitro Diagnostics Directive

Gain an introduction to the In Vitro Diagnostics Directive (IVDD) covering its background and key features. Understand the entire audit process so you can go on to develop IVD quality products, meet safety standards, gain EU market access and maintain compliance throughout the lifecycle of your products.

Duration: 1 Day **In-house**

Application of the In Vitro Diagnostics Directive

Learn about the In Vitro Diagnostic Directive regulatory and standards principles, so you can ensure you're manufacturing to regulatory requirements and developing safe and effective devices.

Duration: 3 Days **In-house**

Creating and Maintaining Compliant Technical Files and Design Dossiers

Learn how to locate and identify regulatory requirements and guidance documents to write procedures and maintain compliant technical files and design dossiers that will help you to sell your product within the EU.

Duration: 1 Day **In-house**

Clinical Evaluation for Medical Devices

Learn what information is necessary to demonstrate clinical safety of products in accordance with the requirements of the European Medical Devices Directive and the Active Implantable Medical Devices Directive.

Duration: 1 Day **In-house**

Medical Devices Risk Management.

ISO 14971

Our ISO 14971 risk management training is essential for all medical device manufacturers.

You will learn how to identify, evaluate and control risks associated with medical devices throughout the product life-cycle. We can help you implement a risk management framework to achieve ongoing compliance.

At the end of this training you will take away the tools to confidently manage risk to an international standard.

Medical Devices Risk Management: ISO 14971

Our ISO 14971 risk management training is an essential and international accreditation for all medical device manufacturers. You will learn how to identify, evaluate and control risks associated with medical devices throughout the product lifecycle, helping you implement a risk management framework to achieve ongoing compliance. At the end of this training you will have the tools to confidently manage risk to an international standard.

"I found the ISO/IEC 27001 Lead Auditor course offered immense benefit across multiple dimensions including course content, industry experience and auditing techniques. The course delivered by experienced trainers amplified this experience enabling participants to develop and enhance their auditing skills."

Michael Markarian
Asia-Pacific Regional Quality Manager,
Hewlett Packard

ISO/IEC 27001:2013 Transition Courses.

Understand the relationship between ISO/IEC 27001:2013 and its predecessor ISO/IEC 27001:2005, and the impact that the new standard is likely to have on your existing ISMS. As a prerequisite, knowledge of the existing ISO/IEC 27001:2005 standard is highly recommended.

Transitioning from ISO/IEC 27001:2005 to ISO/IEC 27001:2013

This one-day course is aimed at those who already have or are implementing an Information Security Management System (ISMS) conforming to ISO/IEC 27001:2005. As the information security standard is now available, all who have an interest in the standard can now learn what is required to conform and transition to the current version.

14	May 2014	Sydney
26	May 2014	Melbourne
20	October 2014	Sydney
22	October 2014	Melbourne

Duration: 1 Day **\$685 (inc GST)**

Lead Auditor: Transitioning from ISO/IEC 27001:2005 to ISO/IEC 27001:2013

This two day course, is aimed at lead auditors currently consulting, implementing or auditing Information Security Management Systems conforming to ISO/IEC 27001:2005. With the updated standard ISO/IEC 27001:2013 now available, there is a need for organizations to prepare for ISMS audits that check conformance with the current standard. Information security management lead auditors, after having passed this course and a two hour examination, will be able to meet that need.

14-15	May 2014	Sydney
26-27	May 2014	Melbourne
20-21	October 2014	Sydney
22-23	October 2014	Melbourne

Cloud Security.

STAR Certification

Cloud computing is growing rapidly, and as more and more organizations use cloud services, there is increasing pressure on Cloud Service Providers (CSPs) to demonstrate that they can be trusted to keep user information and data safe. By achieving STAR certification, CSPs can show that they comply with the fundamental security principles outlined in the Cloud Security Alliance's Cloud Control Matrix (CCM) – and importantly for reassuring users – that this has been independently assessed.

Introduction to the Cloud, Security and STAR Certification

This one day course will provide an insight into the fundamentals of cloud computing, its advantages and disadvantages, whilst providing an insight into how the CSA STAR certification model will work and how it can help you to decide if you wish to outsource your services to the cloud.

16	May 2014	Sydney
28	May 2014	Melbourne

Duration: 1 Day **\$885 (inc GST)**

Auditing Cloud Security for STAR Certification

Learn how to audit a cloud service provider's cloud security, assessing compliance with the Cloud Security Alliance (CSA) Cloud Control Matrix (CCM) and determining a maturity level for their security controls.

BSI Action Manager Software.

New!

Powered by Entropy™

Successful management and reporting of non-conformities and follow-up corrective actions is core to “Making Excellence a Habit” in managing risk and driving continual improvement in organizational performance. Action Manager is a simple, effective, and economical way to manage all corrective action processes in an automated fashion.

Closeout of actions - automated workflow from root cause analysis to close out of actions

Enhanced task management - automatic notifications and escalations improve actions and task ownerships

Visibility into Operations - real-time data on actions and tasks, audit trail history, and version control

Resource and time optimization - on time follow-up ensures effective controls are implemented with time cost savings

Effective compliance - consistent format for corrective actions across people, departments and locations

Reporting, monitoring and dashboards - simple to use dashboards make data analysis and decision making easier, while scorecards give a rapid visibility into problem areas, department or locations

Low cost, subscription pricing - we make it even easier for companies to gain visibility into operational performance

Reduce costs | Maintain compliance | Analyze trends

Road Traffic Safety Management.

ISO 39001

Our Road Traffic Safety (RTS) Management training will help you to understand the agreed industry standard aimed at targeting the reduction of death and serious injury in road traffic incidents. The new standard urges organizations to demonstrate their commitment to the safety and welfare of employees and the general public to reduce road traffic risks. Our ISO 39001 courses are aimed at organizations of all types and sizes but will be of particular interest to those operating fleets of vehicles, road constructors and maintainers and organizations that create demand for road traffic, such as retailers and public services.

Introduction to: ISO 39001

Discover the key features and benefits of Road Traffic Safety (RTS) Management Systems and how it can help your organization reduce or eliminate road traffic accidents.

Benefits of in-house training:

- Cost effective
- Delivered at a venue of your choice
- Tailored to suit your specific needs
- Ideal for training a larger group
- Flexibility

About BSI

How BSI helps organizations embed excellence

Whether in manufacturing or in services, in the developed world or rising economies, in large companies or small, what all organizations need is someone who can help them make excellence a habit.

Our services are designed to align with the steps individual clients need to take to understand what is best practice, how to achieve it and ensure that it remains an ongoing habit.

Shape

BSI, together with independent experts, tackles the issues of today and tomorrow by shaping the standards of excellence across products, business processes and business potential.

Share

We share these standards in the format you need for your organization, enabling dynamic integration of digital content.

Embed

Our trainers transfer the knowledge your people need to embed excellence daily.

Assess

Our assessors understand your business and give you proven ways of measuring excellence, so you can promote it confidently to your stakeholders.

Support

And most importantly, we support you with the knowledge and tools you need to recognize excellence and keep excelling...every day.
