...making excellence a habit.™

## COMPANY PROFILE

BSI (British Standards Institution) is a global organisation that equips businesses with the necessary solutions to turn standards of best practice into habits of excellence. Formed in 1901, BSI was the world's first National Standards Body and a founding member of the International Organization of Standardisation (ISO). Over a century later it continues to facilitate business improvement across the globe by helping its clients drive performance, reduce risk and grow sustainably through the adoption of international management systems standards, many of which BSI originated. Famed for its marks of excellence including the instantly recognizable Kitemark®, BSI's influence spans multiple sectors including oil & gas, telecom, aerospace, construction, energy, engineering, finance, healthcare, IT and retail. With over 64,000 clients in 147 countries, BSI is an organisation whose standards inspire excellence across the globe. To learn more, please visit [www.bsigroup.ae](http://www.bsigroup.ae)

# NEBOSH International General Certificate

## Course Description

Take your health and safety responsibilities seriously with the National Examination Board of Occupational Health and Safety (NEBOSH) International General Certificate. This qualification is an essential part of your professional development if you manage health and safety.

Take the first steps towards greater responsibility and recognition, helping your organization to comply with health and safety legislation. And with a NEBOSH certificate you will know how to cut the cost of accidents and illness at work, and put in place measures that prevent recurring risks.

## Who should attend?

- Health and safety managers and advisors
- Anyone with health and safety responsibilities

## Additional information

### What will I learn?

- Identify hazards and recommend remedial action
- Investigate accidents and near misses
- Recommend cost-effective measures to prevent accidents
- Ensure best-practice and compliance with health and safety legislation
- Understand roles, responsibilities and behavioral risks
- Build awareness and provide health and safety advice

### What are the benefits?

- Qualified Health and safety professionals within your organisation
- Reduce accidents and illness at work and cut related costs

- Industry and customer recognition of health and safety best practice
- Employee confidence in improved working environment

### Prerequisites

- There are no formal prerequisites for this course.

### Further information

- You will complete a two-hour written exam to achieve IOG 1 and receive a NEBOSH certificate

Course Duration: 12 days

# NEBOSH International Construction Certificate

## Course Description

Specialize in safe construction with the National Examination Board of Occupational Safety and Health (NEBOSH) International Construction Certificate. The course is delivered in association with British Safety Services and covers the main areas of health and safety in construction. Learn about fire hazards, demolition, biological threats, and working at height or in confined spaces. All these and more are covered in three modules:

health and safety management; managing and controlling hazards in construction; and the practical elements of safe construction. Once qualified you will get greater responsibility and recognition as a NEBOSH professional.

## Who should attend?

- Those who have completed the NEBOSH National or International General Certificate

## Additional information

### What will I learn?

- How to manage all construction activities safely
- To carry out site assessments and introduce control measures
- Identify hazards and recommend remedial action
- Identify hazards and recommend remedial action
- Deliver management reports and provide health and safety advice

### What are the benefits?

- Highly reliable staff in a high risk environment
- Efficient response in emergency situations

- Industry recognition of robust health and safety management
- Staff confidence in health and safety procedures

### Prerequisites

- It is essential that you complete the NEBOSH National or International General Certificate before taking this course

### Further information

- You will complete a two-hour written exam to achieve IOG 1 and receive a NEBOSH certificate

Course Duration: 15 days

# NEBOSH International Technical Certificate in Oil and Gas Operational Safety (OGC)e

## Course Description

Make the move from generalist to qualified specialist with the International Technical Oil and Gas Certificate (OGC). This National Examination Board in Occupational Safety and Health (NEBOSH) qualification is designed for those who manage health and safety in the oil and gas industry.

Build on your knowledge and understand how to manage oil and gas risk by learning about health and safety and environmental management in context; hydrocarbon process safety; fire protection and emergency response; and logistics and transport operations.

## Who should attend?

- Those who have completed the NEBOSH National or International General Certificate

## Additional information

### What will I learn?

- Risk management techniques used in the oil and gas industries
- Process Safety Management (PSM)
- Role and purpose of a permit-to-work system
- Key principles of shift handover
- Plant operations, maintenance and failure modes
- Safety critical equipment controls and safe storage of hydrocarbons
- Fire and explosion risk and emergency response

### What are the benefits?

- Highly reliable staff in a high risk environment
- Efficient response in emergency situations

- Industry recognition of robust health and safety management
- Staff confidence in health and safety procedures

### Prerequisites

- It is essential that you complete the NEBOSH National or International General Certificate before taking this course

### Further information

- You will complete a two-hour written exam to achieve IOG 1 and receive a NEBOSH certificate

Course Duration: 6 days

# NEBOSH Award for Health and Safety at Work (Level 2)

## Course Description

Start your occupational health and safety journey with a National Examination Board for Occupational Health and Safety (NEBOSH) qualification. Get ahead with the NEBOSH Award for Health and Safety at Work (Level 2) – designed for managers and supervisors with health and safety responsibilities. You'll learn to identify and manage risks, working with occupational health and safety experts to understand the importance of your role.

Help your organization reduce accidents, cut costs and comply with legislation – and take next steps towards becoming a NEBOSH qualified professional.

## Who should attend?

- Managers, supervisors and others with health and safety responsibilities

## Additional information

### What will I learn?

- Understand the general scope of occupational health and safety
- Identify hazards in the workplace and recommend remedial action
- Understand and comply with health and safety legislation
- Recognize relevant roles and responsibilities
- Guide others towards health and safety best practice
- Identify ways to improve health and safety in your organization

### What are the benefits?

- Greater awareness of health and safety across your organization
- Cut costs by reducing work related accidents and disruption
- Industry and customer recognition of health and safety best practice
- Employee confidence in improved working environment

### Prerequisites

- There are no formal prerequisites for this course

### Further information

- You will complete a two-hour written exam to achieve IOG 1 and receive a NEBOSH certificate

Course Duration: 5 days
