

BSI Training Academy

Management System Compliance and Effectiveness training course

Essential information about the course

The number of organizations establishing ISO management systems is increasing. Good organizations recognize the benefits of management systems; great organizations effectively implement them. A management system poorly implemented and maintained, without ensuring compliance to requirements can cost you time, money and customers. That's why it's important to get it right from the start.

This course will concentrate on the critical areas within management systems that allow organizations to maintain better control on compliance. This course also provides a road-map to the effectiveness of your management systems, assisting you in implementing a management system framework that helps your business consistently deliver and drive continual improvement in your products and services.

Our course agenda
