PD CEN/TS16555:2013 Innovation Management System Understanding the international standard that helps organizations to become more innovative

Innovation management system is a new theme that enables organization to grow & be more creative & profitable.

Innovation is more than producing the next big idea - it involves the way you implement new ideas and how you shape the culture to sustain the creation of those ideas.

Therefore, implementing such a management system would allow organizations to become more innovative and to achieve more success with their product, service, process, organizational design, and business model innovations.
