

BSI Training Academy

Your complete guide to
ISO/IEC 27001 training

bsi.

...making excellence a habit.™

ISO/IEC 27001:2013 protecting your information

ISO/IEC 27001 is recognized globally as a best practice framework for an information security management system (ISMS). It helps organizations embed resilience and protect their personal records and commercially sensitive information from business risk and vulnerabilities.

BSI has been at the forefront of ISO/IEC 27001 since the start, which allows us to develop training courses that help organizations get the most out of their information security.

How BSI clients benefit from ISO/IEC 27001*

*Source: BSI Benefits survey - BSI clients were asked which benefits they obtained from ISO/IEC 27001:2013

This flyer showcases our suite of ISO/IEC 27001 training courses so you can select the ones that best meet your business needs. Developed with you in mind, our courses are informative, enjoyable, and interactive. They are delivered by our expert tutors whose knowledge is second-to-none.

We make sure you gain the knowledge and skills to be confident and competent when you work with ISO/IEC 27001 back in your organization.

Upon successful completion of your course, you'll receive an internationally recognized BSI certificate.

Why make BSI your first choice for ISO 27001:2013 training

Our tutors

When it comes to teaching how to make standards work, our tutors are the best in the business. As experienced assessors with years of hands-on business and industry experience, they understand the challenges you're most likely to face. They are passionate about standards and have a proven ability to facilitate great learning.

Our expertise

As the world's first National Standards Body and founding member of ISO, no one knows standards like BSI. And when you train with us you benefit from this experience. You can trust us to say we know what we're talking about and you'll benefit from a premium learning experience. When it comes to standards even our competitors choose us.

Our approach Accelerated Learning

We really understand how training works and that everyone learns and retains knowledge differently. Based on the latest research, our accelerated learning approach is proven to fast-track learning, improve knowledge retention and ensures you can apply your knowledge straight away. We constantly evaluate our results based on your satisfaction and success rate, to provide the best training experience in the industry.

Our solution

We provide a proven pathway to success, wherever you are in your training journey. So whether you want to build your knowledge, learn how to implement or how to audit and improve your management system, we have the right solution for you. You'll also learn right beside your peers; we'll discuss real-world challenges and share best practice based on over 100 years' experience.

Why invest in training from BSI?

When you attend a BSI training course, our tutors are the best in the business. They're truly passionate about sharing their knowledge and ensuring you learn.

Trusted experts with years of hands-on and business experience, they bring information security to life with relevant and contemporary examples to enhance your learning.

ISO/IEC 27001:2013 **Lead Implementer**

Level

An internationally recognized best practice for an information security management system (ISMS), ISO/IEC 27001 helps organizations to build resilience and protect information. So it's no surprise that companies invest in training their people to get the knowledge and skills to use ISO/IEC 27001 to secure their business.

If you're new to ISO/IEC 27001 and need to take the lead on implementing a management system then this course is for you.

You will learn the importance of an ISMS and get the vital skills to interpret and implement the requirements, carry out a gap assessment, as well as gain awareness of management tools and techniques.

The five-day course is packed with practical activities, group discussion and classroom learning to help you retain the knowledge to implement an effective management system. It includes an exam on the final day and upon successful completion you will be awarded with the BSI ISO/IEC 27001 Lead Implementer qualification.

"I learned so much and I feel more confident going through the certification with the knowledge I've gained. I am sure that I will track the courses you deliver to attend more! I truly feel that now I understand what ISO means and I appreciate the standards more."

Abeer Shata, Qatar

ISO/IEC 27001:2013 **Lead Auditor** IRCA Certified (A17287)

Level **1C 2C 3C 4**

As internationally recognized best practice for an information security management system (ISMS), ISO/IEC 27001 helps organizations to build resilience and protect information. So it's no surprise that companies invest in training their people to get the knowledge and skills to use ISO/IEC 27001 to secure their business.

Our ISO/IEC 27001 Lead Auditor training is an intensive five-day course where you'll discover internationally-recognized best practice auditing techniques so you can confidently lead auditing activities.

You'll already have a detailed understanding of ISO/IEC 27001 requirements.

Many delegates on this course will have already attended our ISO/IEC 27001 Internal Auditor training course.

Using accelerated learning techniques our tutors will make sure you leave with the skills to lead, plan, manage and follow up an ISMS audit in accordance with internationally recognized best practice (ISO 19011). It will culminate on day five with a written exam and upon successful completion you'll be awarded an internationally recognized auditing qualification. This course will not only benefit you when you return to your organization, but it could also be an opportunity to advance your career with a professional qualification.

"Thank you so much for the valuable information given to us. I am looking forward to cooperating with BSI in order to meet our training requirements.." Hussein Omar Osma, MAF Dalkia Middle East, Dubai-UAE
