

ISO 13485:2016 Implementation

Two day course

Develop your knowledge and skills in the process of implementing ISO 13485:2016 within your organization. You'll be introduced to the concepts needed to understand, develop and implement a Quality Management System (QMS). This course provides the knowledge and process steps to enable the effective implementation of a QMS that is in line with the requirements for ISO 13485:2016 certification.

How will I benefit?

- Understand how to implement a QMS as required by medical device directives
- Plan the implementation of ISO 13485:2016 within your organization
- Take the first steps towards ISO 13485:2016 certification
- Identify how you can better meet regulatory requirements
- Find ways to increase efficiency and add value through quality management
- Monitor supply chains to achieve continuous improvement.

What will I learn?

- Define a ISO 13485:2016 QMS
- Identify the steps for defining, planning, organizing and scheduling necessary activities
- Implement an effective quality management system
- Conduct a base line review of an organization's current position with regard to ISO 13485:2016.

Who should attend?

Anyone involved in defining, planning, or implementing an ISO 13485:2016 QMS, as well as management representatives and implementation team members.
