Health and safety a priority?

Our BS OHSAS 18001 should come first.
Why BSI? Because we know a good BS OHSAS 18001 when we see one.

We can help give you a competitive advantage because:

1. We have a proven track record, having worked with over 70,000 companies globally, from small and medium sized businesses, to more than 50% of the combined FTSE 100, Fortune 500 and Nikkei organizations.

2. You can trust us to get the standard right and keep it relevant. BSI works in partnership with industry experts, government bodies, trade associations and consumer groups to gain the widest possible market and industry view to shape standards of excellence for the challenges facing organizations today.

3. You will enjoy the benefits of working with people who have decades of experience helping businesses to understand the benefits of and how to implement BS OHSAS 18001 in an array of different sectors, so they understand your challenges.

4. We help you make the most of your management system with our unique Excellerator report. The insight it gives you into your business will accelerate the performance of your management system and benchmark you against other organizations’ performance in your sector.

5. We talk with, and listen to clients like you every day, asking them what they want and how satisfied they are with our products and services. This way we can make sure we are responding to the needs of our clients as they arise.

6. BSI invests heavily in recruiting and developing the best assessors, who score on average 9.2/10 in our Global Client Satisfaction Survey.
Protect your staff and reputation with BS OHSAS 18001.

Ensuring employee health and safety in the workplace should be a high priority for responsible businesses. With our experience, BSI is well placed to support the development of occupational health and safety framework that will help you balance your risk, as well as defend and protect your workforce, reputation and brand.

Every year, millions of workers are injured or lose their lives globally. To reduce their risks, companies of all sizes and in all sectors need to put in place a robust management system.

BS OHSAS 18001 is suitable for organizations that want to set up formal procedures to manage health and safety risks. Taking a risk-based approach to documentation you will be able to decide what you need for your business.
