

## BSI Training Academy

# IATF 16949:2016 Requirements training course

### Essential information about the course

Level **1C**

IATF 16949 is the globally recognized Quality Management System (QMS) standard for the automotive industry. Designed to be used in conjunction with ISO 9001:2015 it contains supplemental requirements specific to the automotive industry rather than being a standalone QMS.

Our IATF 16949 requirements two-day training course is relevant for any size organization involved in the automotive supply chain. It provides an excellent introduction to the standard, and for those who wish to go on and develop their

implementing and auditing skills, it is a great place from which you can start this journey.

Our expert tutors will make sure you complete the course feeling confident that you can apply the knowledge as soon as you step back inside your organization.

The course is structured to optimize your learning using our unique approach to accelerated learning, and it will consist of a blend of practical activities, group discussions and classroom learning.
