The new ISO 14001
BSI’s Best Practice Transition Journey
Approaching change

...making excellence a habit.
ISO 14001:2015 Best Practice Journey from Revision to Transition

ISO 14001, the internationally recognized standard for environmental management systems, is being revised to ensure it maintains its relevance in today's market place and in the future. Through our experience of developing standards and managing thousands of client interactions every year, BSI knows the best practice way of transitioning to a new standard smoothly. Our comprehensive suite of training and support material has been structured to guide you and your organization through the revision process, every step of the way.

Buy a copy of the Final Draft International Standard and/or ISO 14001 Standard on publication as soon as possible

Understand some of the new requirements in more detail, visit the BSI website for the latest whitepapers

Developed by experts, our range of transition courses ensures you fully understand the changes and the core requirements

BSI has developed a comprehensive toolkit to help you understand the changes and implement them in your organization

BSI has a wide range of services to help you implement the changes and understand how well you're doing

Senior Management Briefing
This executive session highlights the benefits of an effective EMS and the leadership responsibilities

Transition
Learn about the new ISO high level structure (HLS) and the key changes between ISO 14001:2004 and ISO 14001:2015

Implementing Changes
Discover how to apply the key changes to ISO 14001:2015 and formulate a transition action plan for your organization

Auditor/Lead Auditor Transition
Combined with the transition course, you'll not only learn about ISO 14001:2015 but also build up your auditing skills

Deep Dive
Exploring in greater detail the 4 critical areas of the new standard: Lifecycle Perspective, Process Approach, Risk-based Thinking, External Provision and Leadership

The Importance of Leadership
Understand how leadership is being incorporated in all new ISO Standards and what this means in practical terms

Process versus procedures
Understand the difference between a process and a procedures approach and how this relates to the new High Level Structure

BSI has a wide range of services to help you implement the changes and understand how well you're doing

GAP Assessment
BSI can carry out an optional 'gap-analysis' to help you identify any weaknesses or omissions prior to formal assessment

BSI Action Manager or Entropy™
Manage your transition as effectively as possible with business improvement software including Action Management, GAP Assessment and Training Management

Certification to ISO FDIS 14001:2015
BSI will offer unaccredited certification against the FDIS when published around June 2015 for clients who want to transition early

Transition Assessment
You will be able to transition to the new standard once it is published, ensuring that you quickly benefit from the new standard

Self-Assessment Checklist
Helps you assess your organization's readiness for an ISO 14001:2015 certification assessment and identify any gaps

Mapping Guide
An overview of the changes, deletions, new or enhanced requirements between ISO 14001:2004 and the FDIS ISO 14001

Internal Communications Pack
To help you communicate the changes and new requirements within your organization including leadership briefing and presentation

5 Key Steps for a Successful Transition

Don’t delay – start working on your transition today

1. Talk to your BSI Client Manager
   - Discuss your challenges and timelines
   - Review the latest videos and whitepapers on the BSI website for background information

2. Attend a BSI Training Course
   - Understand the new requirements faster and in greater detail by attending our training courses; from introduction through to deep dive modules which explain the new areas in greater depth.

3. Communicate with your organization
   - Talk to your leadership team about the new requirements
   - Communicate the revision to your wider organization to gain buy in
   - Send regular updates on progress

4. Set up an Internal Project Team
   - Download BSI’s transition toolkit which will guide you through the transition
   - Conduct a GAP analysis against your current system
   - Create an implementation plan and monitor progress
   - Take a fresh look at your EMS
   - Implement the new requirements on leadership, risk, external provision and context of the organization
   - Change your documentation to reflect the new structure

5. Gap Analysis/Transition Assessment
   - BSI can conduct a GAP analysis to help you identify any weaknesses prior to formal assessment
   - Consider an early assessment against the FDIS
   - Transition assessments to the new standard will be available once it has been published.

ISO 14001:2015 Transition Timeline

- **June 2015** FDIS 14001 publication
- **September 2015** New ISO publication
- **Expected transition between 2-3 years**
