

Lead Auditor Course ISO 22301 : 2012 (IRCA Reg, No : A17456)

Course Description

Customers expect organizations to plan and prepare for unforeseen events. Through an effective Business Continuity Management System (BCMS) based on ISO 22301, organizations can build the resilience and capability to keep operating when unexpected disruptions occur. This course will develop the knowledge and skills required to lead a BCMS audit, with emphasis on independent auditing principles and practices. Led by an expert instructor, practical exercises, group activities and class discussions will be used to guide you through the entire audit process from the planning of the audit through to reporting the results

Course Structure

Interactive sessions, role play and workshops are based on recent case histories, ensuring that the skills and methodologies transferred are current best practice and are relevant to real life situations.

- Describe the purpose of a business continuity management system, of business continuity management systems standards, of management system audit and of third party certification
- Explain the role of an auditor to plan, conduct, report and follow up business continuity management system audit in accordance with ISO 19011 (and ISO 17021 where appropriate)
- Plan, conduct, report and follow up an audit of a business continuity management system to establish conformity (or otherwise) with ISO 22301 in accordance with ISO 19011 (and ISO 17021 where appropriate).
- To understand the relationship between a Business Continuity Management System, including risk management, controls and compliance with the requirements of different stakeholders of the organization
- To improve the ability to analyze the internal and external environment of an organization, risk assessment and audit decision-making in the context of a BCMS
