## Why train with us?

Great businesses need great people

Research shows that when an organization invests in training and development, they reap real rewards:

We've shaped the **world's most adopted standards** including ISO 9001, ISO 14001 and BS OHSAS 18001

Businesses are **2.5 x more likely to fail** if they don't train their staff\*

**94%** of our delegates score our tutors 9 or 10 out of 10

**83%** of people feel that staff are the key to maintaining a competitive edge\*

**55%** of FTSE 100 companies are BSI clients

BSI spend **165,000 days** with clients in a year, so we know what businesses want and understand their needs

In 2014 we trained **105,000** people, from SMEs to global organizations

**45%** percent of staff say they'd feel more motivated if their organization invested in **skills training**\*

Our tutors have **250 years** experience working with management systems between them

# What is CLIP for Energy Management?

Certified Lead Implementer Professional for Energy Management System course includes guidance on developing an implementation plan, creating necessary documentation, monitoring an energy management system and achieving continual improvement in energy performance. Hands-on exercises and a take-home toolkit will help you to learn effectively while also providing information that can be referenced during your organization's implementation process.

This 5 day course provides guidance on how to implement an effective ISO 50001 energy management system (EnMS). The course enables organizations to establish the systems and processes necessary to improve energy performance, energy efficiency, and help reduce energy consumption and costs. Work with our world-class energy trainers on our Certified Lead Implementer Professional Training Course to guide your organisation to take a systematic approach towards achieving continual improvement in energy management..

## 1 Who should become Certified Lead Implementer Professional for Energy Management?

- Those interested in improving energy performance and energy efficiency
- Those who want to implement an ISO 50001 EnMS
- Those with a responsibility for energy management
- Energy managers (management representatives, plant managers, facility managers)
- Energy coordinators (process owners, engineers)
- Energy management consultants

## 2 What will you learn?

Participants will gain knowledge on:

- Discuss the fundamentals of energy management
- Interpret the requirements of ISO 50001 from an implementation perspective
- Identify the resources needed to implement ISO 50001
- Develop energy policies, processes, targets and measuring methods
- Develop a plan to implement an ISO 50001 EnMS
- Define and develop baseline energy performance indicators
- Integrate the EnMS with other management systems
- Establish internal benchmarking, measuring and documenting for improving energy performance
- Complete the Certified Lead Implementer Professional ISO/IEC 50001 Certificate Exam
- Develop skills to conduct Internal Audit as per ISO 50001 standards requirements

## 3 How will your organization benefit?

This course will help:

- Save money by improving energy efficiency and performance, and reduce greenhouse gas (GHG) emissions and other related environmental impacts
- Competence to implement ISO 50001
- Confidence in your ability to implement a robust Energy Management System
- Competence to build awareness and understanding of best practice Energy Management System within your organization
- Confidence to build a system that meets legal requirements and achieves energy performance targets
- Improve efficiency and gain industry and customer recognition
- Help the integration of ISO 50001 with other management systems to save resources

## 4 What will include in program?

- Refreshments & Lunch
- Detailed course notes, Pen & Notepad
- Relevant Case Studies
- CLIP Certificate of attending/passing the examination
- CLIP Directory of trained professional will be maintained on BSI's website

An examination is held on the final day and successful delegates will be awarded with CLIP Professional certificate.

## 5 Program fee & duration

Instructor led classroom based training program

Course duration : 5 Days  
Course fee: INR 35,000/- per delegate  
(Service tax extra as applicable)
