Why train with us?

Great businesses need great people

Research shows that when an organization invests in training and development, they reap real rewards:

We've shaped the **world's most adopted standards** including ISO 9001, ISO 14001 and BS OHSAS 18001

Businesses are **2.5 x more likely to fail** if they don't train their staff*

94% of our delegates score our tutors 9 or 10 out of 10

83% of people feel that staff are the key to maintaining a competitive edge*

55% of FTSE 100 companies are BSI clients

BSI spend **165,000 days** with clients in a year, so we know what businesses want and understand their needs

In 2014 we trained **105,000** people, from SMEs to global organizations

45% percent of staff say they'd feel more motivated if their organization invested in **skills training***

Our tutors have **250 years** experience working with management systems between them

Steps to Becoming a **CLIP** Professional

...making excellence a habit.™

What is CLIP?

CLIP (Certified Lead Implementer Professional) is a personal certification programme focusing on providing in-depth implementation knowledge on various management systems. In this program we will help you develop your skills and understanding of the practicalities involved when setting up a typical management system framework that conforms with the standard. This includes learning how to set up policies, processes and procedures for your respective management system.

Additionally, BSI will also focus on developing your project management ability to lead a team with the implementing of various management system in your business. This can be crucial if your management system will need to scale throughout your organization.

1 Who should become Certified Lead Implementer Professional?

This is intended for those who are/will be involved in advising top management on the introduction of a management system into an organization. It is especially relevant for those who have the responsibility to lead the implementation of a management system in a business or provide consultation on the subject.

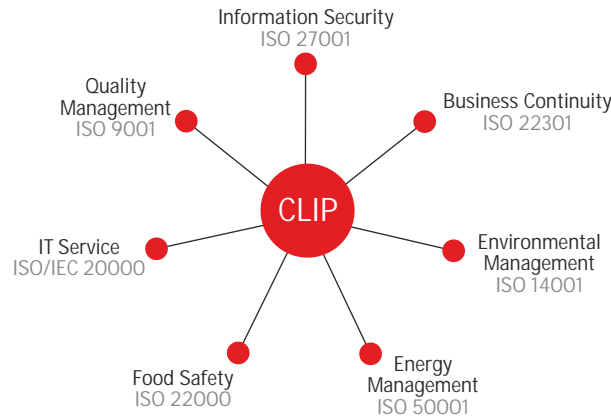

2 What will you learn?

In the program you will learn about:

- What is a management system and why it is important to an organization
- What are the benefits of management systems
- What are the key concepts and principles in a management system
- What terms and definitions are used in a standard
- What are the main requirements of standard
- How to identify a typical framework to implement a management system following the Plan, Do, Check, Act (PDCA) cycle

BSI offerings
