

# ISO 14001:2015

## Implementing Changes

### Two day course

Ease your transition to ISO 14001:2015 by identifying the core changes to the new standard. Enhance your knowledge of the amended requirements and learn to develop an action plan that will assist the implementation of changes within your organization.

#### How will I benefit?

- Use gap analysis tools and templates to evaluate your current system
- Apply the key changes between ISO 14001:2004 and ISO 14001:2015
- Implement the new requirements in Annex SL (Appendix 2) relating to organizational context, leadership, planning and support
- Identify new requirements for documented information
- Develop an action plan that you can apply immediately
- Find out about transition arrangements for BSI certification.

#### What will I learn?

Combining the 1-day 'ISO 14001:2015 Transition' course with an extra day of implementation activities, you'll identify the amended requirements and how you can implement these changes within your current system. You'll formulate your own action plan to help you implement robust process controls that are specific to your organization.

#### Who should attend?

This course is ideal for anyone involved in the planning, implementing or supervising of an ISO 14001:2015 transition.

“The tutor's style of presentation, variety of methods and good humor were the key to success.” Chris Evans, Aviation Advisor, Shell

Improvement  
Reflection and feedback

## Our knowledge

We don't just train you to meet standards – we create them. As the world's first National Standards Body and a founding member of ISO, no one knows standards like BSI. Our expert knowledge means a lot and when you train with us, you benefit from this expertise.

## Our tutors

Our tutors are the best in the business. As experienced assessors, they'll transfer the knowledge you need to embed standards into your organization and develop them through continual improvement.

Book today by visiting [bsigroup.com/training](https://bsigroup.com/training)

## Our approach

Our high impact accelerated learning approach is proven to fast-track learning by improving knowledge retention and skill application. This course is activity based, resulting in a deeper understanding of material and greater impact on job performance.

## Your expertise

Our training courses will give you the knowledge and skills to embed the standards that matter to you the most. To promote your professional development, you'll receive a personalized BSI Training Academy certificate that's recognized worldwide.

*Note: All course information is based on ISO/DIS 14001:2015. You'll receive a complimentary update when the final standard publishes to ensure you're fully informed of any changes. We'll also reissue an updated certificate.*
