

Certified Safety Professional (CSP) Examination Preparation Workshop

BSI will be hosting a **Certified Safety Professional™ (CSP) Examination Preparation Workshop** presented by SPAN™ International Training LLC. The CSP Exam is the second-level examination required in the two test process. This five and one-half hour computer delivered examination consists of 200 questions that examine the candidate's applied knowledge and the application of experience gained through professional practice.

This course is designed to prepare individuals for the Comprehensive Examination leading to certification as a CSP. The workshop covers the four areas of the exam: engineering, management, information management and communications and professional conduct and ethics. Your preparation will include lectures, sample problems, and discussions on a variety of subjects to prepare the student for the exam. At the completion of the CSP prep workshop participants will learn to:

- Concepts of probability, statistics and calculus
- Engineering: safety and environmental, occupational health, fire protection
- Applied management: principles, ergonomics analysis, risk management, Workers' Compensation
- Legal/regulatory and professional affairs

The workshop includes a 500 page professionally published CSP Exam Study Workbook, BCSP approved scientific calculator, pencils, notepad, highlighter, and SPAN™ offers the CertBok® online learning management system. The CertBok® includes a targeted database of questions with multiple enhanced learning, exam simulation, and performance tracking capabilities is provided as part of the workshop (\$275 value!).
