<tr>
<th>Energy issue</th>
<th>How ISO 50001 helps</th>
<th>Benefit</th>
</tr>
</thead>
</table>
| Rising energy costs are a challenge for any organization | • It helps to identify what energy is being used and where  
• It highlights if energy is being wasted  
• It implements effective operational controls to manage your energy usage | • Money is saved through better energy management  
• Less waste and more efficiency  
• Improved procurement procedures  
• Reduced impact of rising costs |
| Organizations need to stay up to date with legislation and remain compliant, as breaches can lead to fines and prosecution | • It makes you take account of legal requirements when setting up, implementing and maintaining your ISO 50001 system  
• It makes you comply with applicable legal requirements  
• It makes you communicate relevant information on legal and other requirements to employees and interested parties | • Improved levels of compliance to energy legislation  
• Reduced likelihood of fines and prosecutions, and lower insurance premiums  
• Allows adequate time to address issues ahead of legislation changes |
| Poor environmental credentials can damage an organization’s reputation with both customers and investors | • It reassures stakeholders that best practice systems are in place  
• It makes sure you monitor and continually improve your energy management processes  
• It helps you to reduce greenhouse gas emissions | • Improved reputation and stakeholder satisfaction  
• Increased access to new customers, business partners and tender opportunities  
• A competitive advantage to grow your business  
• Lower carbon emissions to help reduce climate change |
| Threat of energy shortages | • It gives you a better understanding of energy use  
• It improves the efficient use of natural materials | • Improved energy efficiency now and in the future  
• Reduced reliance on fossil fuels  
• Increased use of sustainable energy sources  
• Helps to meet any self-imposed targets your organization has set |

**Supporting products and services**
