Why BSI? Because we know a good BS OHSAS 18001 when we see one.

We can help give you a competitive advantage because:

1. We have a proven track record of working with over 65,000 companies globally, from small and medium sized businesses, to more than 50% of the combined FTSE 100, Fortune 500 and Nikkei organizations.

2. You can trust us to get the standard right and keep it relevant. BSI works in partnership with industry experts, government bodies, trade associations and consumer groups to gain the widest possible market and industry view to shape standards of excellence for the challenges facing organizations today.

3. You will enjoy the benefits of working with people who have decades of experience helping businesses to understand the benefits of BS OHSAS 18001 in an array of different sectors, so they understand your challenges.

4. We help you make the most of your management system with our unique Excellerator report. The insight it gives you into your business will accelerate the performance of your management system and benchmark you against other organizations' performance in your sector.

5. We talk with, and listen to clients like you every day, asking them what they want and how satisfied they are with our products and services. This way we can make sure we are responding to the needs of our clients as they arise.

6. BSI invests heavily in recruiting and developing the best assessors, who score on average 9.2/10 in our Global Client Satisfaction Survey.

Keeping people safe and protecting your business. Risk management demands your attention. Let BS OHSAS 18001 from BSI work for you. 

As experts in this field, we have designed a range of products and services to help bring industry-recognised practices to your organization and help you identify safety risks and hazards so that you can manage them. This means small and large companies alike can enjoy a safer workplace, leading to better business performance.

Whether you are new to BS OHSAS 18001 or looking to take your expertise further, we have the right training courses, resources and services available.

We offer service packages that can be customised to your business to provide your health and safety management – taking the cost of services you don’t need. A customised BS OHSAS 18001 package can be designed to remove the complexity of getting you where you want to be – whatever your starting point.
