

# We spend **250,000** hours a year improving the performance of **BSI** businesses

ISO 14001

This experience allows us to see first-hand how managing environmental impacts with an **ISO 14001** management system helps to achieve a sustainable future and deliver real benefits.

Environmental issue	How ISO 14001 helps	Benefit
Pressure to grow sustainably is a challenge for any organization	<ul style="list-style-type: none"><li>• It identifies and establishes the significance of all your environmental impacts</li><li>• It implements effective operational controls to manage your environmental impacts</li><li>• It improves the efficient use of natural materials</li></ul>	<ul style="list-style-type: none"><li>• Lower operational costs which allows you to pass cost savings on to your customers</li><li>• Reduced waste and an increase in efficiency</li><li>• Increased stakeholder confidence</li></ul>
Organizations need to stay up to date with legislation and remain compliant, as breaches can lead to fines and prosecution	<ul style="list-style-type: none"><li>• It makes you take account of legal requirements when setting up, implementing and maintaining your ISO 14001 system</li><li>• It ensures you commit to complying with applicable legal requirements</li><li>• It makes you communicate relevant information on legal and other requirements to employees and interested parties</li></ul>	<ul style="list-style-type: none"><li>• Improved levels of compliance to environmental legislation</li><li>• Reduced likelihood of fines and prosecutions, which in turn can lead to less visits from the environmental agency and lower insurance premiums.</li><li>• Keep abreast of legislation changes so that you have adequate time to address issues and ensure compliance</li></ul>
A poor environmental record can quickly damage an organizations reputation with both customers and investors	<ul style="list-style-type: none"><li>• It shows that environmental impacts are priority</li><li>• It reassures stakeholders that best practice systems are in place</li><li>• It makes sure you continually improve your sustainable development</li></ul>	<ul style="list-style-type: none"><li>• Improved reputation and stakeholder satisfaction</li><li>• Increased access to new customers and business partners</li><li>• A competitive advantage to grow your business</li></ul>
Increasingly supply chains demand that organizations manage their environmental impact	<ul style="list-style-type: none"><li>• It demonstrates that you are an ethical and credible organization</li><li>• It is internationally recognized</li><li>• It helps to establish lasting partnerships with customers and suppliers at home and abroad</li></ul>	<ul style="list-style-type: none"><li>• Increased likelihood of repeat business</li><li>• Access to new markets<ul style="list-style-type: none"><li>- positively presents your organization for tenders and investment opportunities</li><li>- opportunities to expand your business overseas</li></ul></li></ul>
