

2022 BSI Spring Standards Conference

25 & 26 May

The future is yours - Taking a fresh look with young professionals following a period of challenge, change and uncertainty

Join us to explore key focus areas of People, Digitalization and Sustainability and the role of standards in shaping the future you want to see

Agenda

Day 1 – Join us online to engage in our live virtual breakout sessions taking a look at some specific aspects of our Conference theme including: AI and machine learning, energy transition to Net Zero, purpose driven organizations, Internet of Things, food waste, vulnerable consumers and more

Day 2 – Join us in person or online for a discussion which brings a more strategic, big picture point of view on the specific aspects of People, Digitalization and Sustainability, explored in our breakout sessions on Day 1. Our keynote and high-level panel discussions will explore two key areas: 'Are you Future Ready?' and 'A Better World'. New for 2022, Day 2 will also include a new panel discussion exploring the role of standards in shaping careers

Day 1: 25 May

Build your custom programme selecting from our concurrent virtual (online only) breakout sessions. Choose one of two sessions running during each time slot to join live so that you can participate in the discussion. Watch a recording of the other session on demand via the event platform.
