

Below is information about each of the Knowledge Marketplace exhibitors. Please remember to use the links in the Agenda within the Joining Instructions e-mailed to all registered participants to access the meetings with them.

About our Exhibitors

Chartered Institute of Ergonomics and Human Factors

The CIEHF is the professional home and voice for ergonomics and human factors offering thought leadership, peer-to-peer networking, training and development opportunities, and access to invaluable information. As the only organisation in the world with a

Royal Charter for the discipline, they accredit courses and provide a unique route to Chartered status. Their network of members spans 47 countries and covers all sectors including healthcare, transport, defence, energy and manufacturing.

GAMBICA

As the UK Trade Association for Instrumentation, Control, Automation and Laboratory Technology GAMBICA forms a community of members and stakeholders that shares knowledge and best practice, shapes

opinion and enhances the profile of our sector. Its activities range from influencing policy, standards and regulation for the benefit of the industry to the publishing of unique market reports and forecasts to allow its members to accurately plan future strategies and budgets. GAMBICA also helps its members develop business by promoting the industry through exhibitions, events, publications and media campaigns.

Institute for Collaborative Working

The Institute for Collaborative Working provides practical guidance for collaborative working utilising knowledge from extensive relationships within the commercial, Government and academic arenas. ICW is recognised as the thought leader and driving force behind the development of ISO 44001 and its further evolution. The CRAFT methodology developed from the collective experience of the ICW

knowledge network was the foundation for the ISO standard. ICW continues to work with subject matter experts in collaborative working by supporting organizations to effectively implement a structured approach, developing the skills and research.

The Office for Product Safety and Standards

Office for Product
Safety & Standards

The Office for Product Safety and Standards (OPSS) is part of the Department for Business, Energy and Industrial Strategy (BEIS). Their purpose is to make regulation work, so that it protects people and enables businesses to understand their obligations. OPSS oversee the regulatory system for product safety and standards in the UK. They

are building national capacity and implementing the Industrial Strategy vision of simplifying regulation.

UCL Science, Technology, Engineering and Public Policy Department (STeAPP)

DEPARTMENT OF SCIENCE,
TECHNOLOGY, ENGINEERING AND
PUBLIC POLICY

The Regulatory and standardization challenges for connected and intelligent medical devices project is based at UCL's Science, Technology, Engineering and Public Policy department (STeAPP), and is in collaboration with BSI. The project is being conducted by UCL STeAPP MPA candidates: Natalia Maj, Malla Tedroff, Jiehui Song,

Jan Sassenberg and Gabriella Ezeani and led by Dr Irina Brass.

The British Standards Society

British Standards
SOCIETY

The British Standards Society (BSS) is the UK standard users' organization. The aim of BSS is to promote the needs and interests of British Standards users, share and develop good practice in the use of British Standards, and contribute to British Standards development and implementations.

For more information please contact bss@bsigroup.com.

Innovate UK

**Innovate
UK**

Innovate UK is the UK's innovation agency. Part of UK Research and Innovation, we work with people, companies and partner organisations to find and drive the science and technology innovations that will grow the UK economy.

With a strong business focus, we drive growth by working with companies to de-risk, enable and support innovation. We connect business to the partners, customers and investors that can help turn ideas into commercially successful products and services and business growth. We fund business and research collaborations to accelerate innovation and drive business investment into research and development. Our support is available to businesses across all economic sectors, value chains and UK regions.
