Designed to accelerate progress

# Qualifications with BSI - Progress towards your ideal future

BSI is your partner for progress. We've developed our qualifications so you can accelerate positive change, support your organization's goals and become a key leader in creating a more resilient and sustainable future.

As the creator of the world's leading standards, we offer a comprehensive suite of carefully-assessed qualifications to help forward-thinking individuals like you develop skills and competencies at the highest level. We offer qualifications across many disciplines, including auditing, digital trust, artificial intelligence, GHGs, sustainability, health, safety and well-being and quality.

With flexible learning options to fit around work schedules including, on-demand eLearning, in-person, or virtual learning, individuals are able to attain a qualification whilst continuing to work.

**94%** of BSI clients would recommend a BSI qualification to their peers

“

“A Qualification from a highly reputable and well-established organization such as BSI convincingly conveys information about my professional skills and dedication.”

Péter B K,  
QA Analyst, Saudi Petroleum Services Polytechnic, KSA

# What is a Mark of Trust?

## Showcasing your expertise

BSI is recognized globally as one of the most experienced independent assessors of best practice. That makes our Marks of Trust a valuable and tangible demonstration of excellence.

When you achieve your qualification with BSI; showing that you have not only taken a course but been assessed on your learnings, you'll be able to make your own mark by using the BSI Mark of Trust. The Marks of Trust showcase your personal achievements on business cards, social media and official documents. By using your Mark of Trust, your organization's reputation and standing in a competitive marketplace is enhanced, demonstrating the high level of skills, commitment to excellence and greater expertise within the organization.

# Qualification levels

Our qualifications are structured learning pathways that combine carefully selected courses with rigorous assessments that guarantee their relevance.

Through assessment and recognized outcomes at each stage, our qualifications don't only teach you the most relevant skills and knowledge for what's needed in the industry, but ensure you can apply them. Assessments confirm your understanding and retention of course content, so you, your employer and your peers can be sure of your status as a qualified professional.

Most qualification levels begin at practitioner level, lead to professional level before reaching the highest level of qualification: certified professional.

1

## **Practitioner**

This qualification focuses on building a strong understanding of the fundamentals of the subject, enabling you to increase your performance and effectiveness within your role to the standard expected.

2

## **Professional**

The professional qualification broadens your understanding of your industry, building on the practitioner-level content through the in-depth exploration of key subject areas.

3

## **Certified Professional**

Getting your professional qualification certified demonstrates that you are successfully applying everything you have learned, adding value to industry. It also shows you are committed to staying up-to-date and making a positive impact in your industry through professional development

# The importance of qualifications

## For you

Qualifications to help forward-thinking individuals succeed

We've designed our qualifications with your success in mind.

We help you:

- Identify the right qualification to meet your personal and professional objectives, whether it's your first or next qualification
- Develop the skills, competencies, and confidence to progress your career and bring greater benefits to your organization
- Apply your learning to everyday scenarios to be more agile and increase responsibilities within your role
- Prove your expertise through rigorous assessment and allowing you to showcase your achievement with a BSI Mark of Trust on your business card, social media and CV

"I would like to thank you for delivering a fantastic online course. The content was great and very relevant. The tutor was so enthusiastic and made the training both interesting and enjoyable!"

Ekaterina Serban, Robert Bosch, Power Tools GMBH

## For your organization

Supporting you and your organization's goals

We partner with you to understand your organization's unique development needs. Together, we help you:

Create a qualifications approach that aligns with and meets your organization's strategic objectives

Deliver learning across multiple departments, sites and regions – using a blended mix of courses and delivery methods

Create structured qualification pathways for your teams that can increase employee retention and contribute to a more engaged and motivated workforce

Accelerate positive culture change to become a key leader in creating a more resilient and sustainable future

"The tutor contacted me prior to the course to discuss our requirements. The course she delivered was exactly what we needed and more. She was very attentive and ensured we understood every aspect, providing examples to reinforce the training. An excellent course delivered by a super and professional trainer. Thank you."

Karen Gunning, HPC Healthline UK Ltd

# Join our global Community

**31%** of BSI clients said working with BSI experts was their favorite part of getting qualified

When it comes to learning new skills and building competency, community is key. That's why we've built a global network of leading assessors, tutors and subject matter experts who support you throughout the entire qualification pathway. Not only do they share real world experiences and practical recommendations, they also help professionals grow the confidence needed to develop their careers and thrive.

**Our global BSI community helps professionals across different industries, specialties and regions by:**

- Sharing advice and experiences
- Gaining access to practical advice and materials that you can use in your everyday life
- Engaging with industry experts and other BSI members through social events

**Joining our global community**

# Client Success Story

## Nagaoka International Corporation

If you're looking to strengthen the skills within your teams so you can have a greater impact in the organization and beyond, let Nagaoka International's story inspire you.

The business enrolled their teams on our BSI ISO 9001 QMS Internal Auditor Practitioner Qualification. This enabled them to successfully upskill their staff while increasing employee engagement and retention and giving people a valuable qualification for the future.

### Nagaoka's objective was to improve competence

Based in Japan, Nagaoka is an energy and water-related business firm that employs a number of internal auditors. Having appointed several new ones to the team and conducted in-house training, the firm realized it wanted to improve their auditing competence while motivating the department.

### Flexible learning options that made upskilling easy

The answer was to help each member of the team to obtain a BSI Auditor Qualification. The training was in person and online, which meant individuals could train more flexibly from home, arranging their learning around their work commitments.

### Motivated learners, better audits

By acquiring BSI auditor qualifications, Nagaoka's team of sixteen internal auditors has each grown more competent and motivated, with a valuable qualification that progresses their career. Meanwhile, the firm maintains a systematic QMS and the ability to improve the consistency and quality of their internal audits.

## Why partner with BSI?
