

Your live online training

BSI Connected Learning Live (Live Online Training) is a real-time, online way of training that delivers our world class learning programmes to you through an engaging and interactive experience, regardless of your location.

This is an ideal alternative to the typical classroom setting for professionals who do not have the budget or time for travel, or just prefer the convenience of attending a course online.

Although your tutor may be far away and your fellow delegates in different locations, we bring you together in a virtual classroom on the web. This is an interactive experience where the tutor can engage with delegates and share materials as if you were in a real classroom. You can also interact fully with your fellow delegates during these sessions.

Your Connected Learning Live courses

Some of our most popular training courses are now available through BSI Connected Learning Live. These include courses for the following subjects and other management system standards*:

-  **ISO 9001** Quality Management
-  **ISO 14001** Environmental Management
-  **ISO/IEC 27001** Information Security
-  **ISO 22301** Business Continuity Management
-  **ISO 45001** Occupational Health and Safety

The advantages of BSI Connected Learning Live

The digital revolution is changing the learning landscape. It offers more flexibility and gives delegates the ability to choose the environment in which they learn. Developed with the needs of organizations and professionals in mind Connected Learning Live is a quality learning experience that offers the following advantages.

True Class Environment

Our expert tutors and delegates interact real-time on our industry-leading web learning platform which creates an engaging classroom environment. You can communicate with the tutor and your classmates throughout the sessions.

Comprehensive Learning Experience

Our tutors share their in-depth knowledge and create a rich learning experience using a combination of teaching, discussion and activities. You'll receive the same level of quality training as our classroom courses. Classes are kept small so you get the right level of personal attention.

Cost Savings

You can take courses at work, home, or anywhere there's an internet connection, thereby eliminating travel costs such as car, air, and hotel expenses, saving you and your company money and time.

Achieve professional recognition

When you successfully complete one of our Connected Learning Live courses you will receive an internationally recognized BSI training course certificate.

How it works

For the course

Accessing the training online

The course is hosted on **Cisco WebEx**.

This includes helpful features to maximize your learning experience such as:

- Whiteboards
- Documents and video sharing
- Chats
- File downloads

Accessing the training material

The delegate course material will be made available for you on **Mimeo Digital**. Mimeo is your personal library for viewing, taking notes and interacting with content provided to you by BSI.

- An email containing your key code to access the course materials is sent 10 days prior to your course start date.
- Please ensure you have an electronic device available for the duration of the course, with the materials downloaded prior to attending the course. This device must be a tablet capable of reading PDF documents or a laptop.
- You must register with Mimeo digital, which provides you with the materials that will be used on the course. You can access this by clicking on the following link: <https://BSI.mimeo.digital/#?k=GBNPS08VO11G>
- Once you've redeemed your key, your course materials will appear in the library. You'll be prompted to enable offline access, which is useful if you need to access your materials when you're offline.
- If you are having problems accessing your account, click **Forgot Your Password?** on the login screen, or utilise the live chat in the lower left corner of your screen.

For the delegate:

What you need to ensure you get the best online learning experience

- A **PC or laptop** with high-speed internet- At least 2GB RAM is recommended. More detail on system requirements can be found by clicking on this link: <https://www.webex.co.uk/support/support-system-requirements.html>
If you will be using a laptop or a Tablet, please check that you have enough battery charge for the duration of the session, or plug into the mains.
- A **Webcam**- A good quality webcam is recommended, and both integrated or standalone cameras are suitable.
- A **USB** headset- A good quality headset with microphone is recommended. USB headsets are preferred. It is advisable not to use in ear earphones as these can become uncomfortable over time. It is also advisable not to use Bluetooth headsets as these can be affected by other Bluetooth devices nearby.

Please also find a place that is comfortable, quiet and free from interruptions. Due to background noise and distractions, it is advised that you do not attend from your office work desk if it is in an open plan environment.

The Login details will be sent to you nearer the time of the training from our operations team.

Why make BSI your first choice for training

We provide a proven pathway to success, wherever you are in your training journey. Build your knowledge, learn how to implement and audit management systems, or discover tools and techniques to make your business more resilient – whatever your requirements we have the right solution for you. You'll also learn with your peers; we'll discuss real-world challenges and share best practice based on over 100 years' experience.

About BSI

BSI is the business improvement company that enables organizations to turn standards of best practice into habits of excellence.
