

Why BSI?

BSI has been at the forefront of ISO/IEC 20000-1 since the start. Originally based on BS 15000, developed by BSI in 2000, we've been involved in its development and the ISO technical committee ever since. That's why we're best placed to help you understand the standard.

At BSI we create excellence by driving the success of our clients through standards. We help organizations to embed resilience, helping them to grow sustainably, adapt to change, and prosper for the long term. We make excellence a habit.

Introducing ISO/IEC 20000-1 Service Management

Delivering quality and value through services

Build effective and resilient services with **ISO/IEC 20000-1**

Benefits of ISO/IEC 20000-1*

As service delivery environments continue to evolve, service providers are looking for ways to better respond to increasing demands and deliver value for customers, users and their organization. And that's where ISO/IEC 20000-1 can help.

ISO/IEC 20000-1 is the internationally recognized standard for a service management system (SMS). It helps you to embed a service lifecycle strategy into your organization - providing best practice guidance

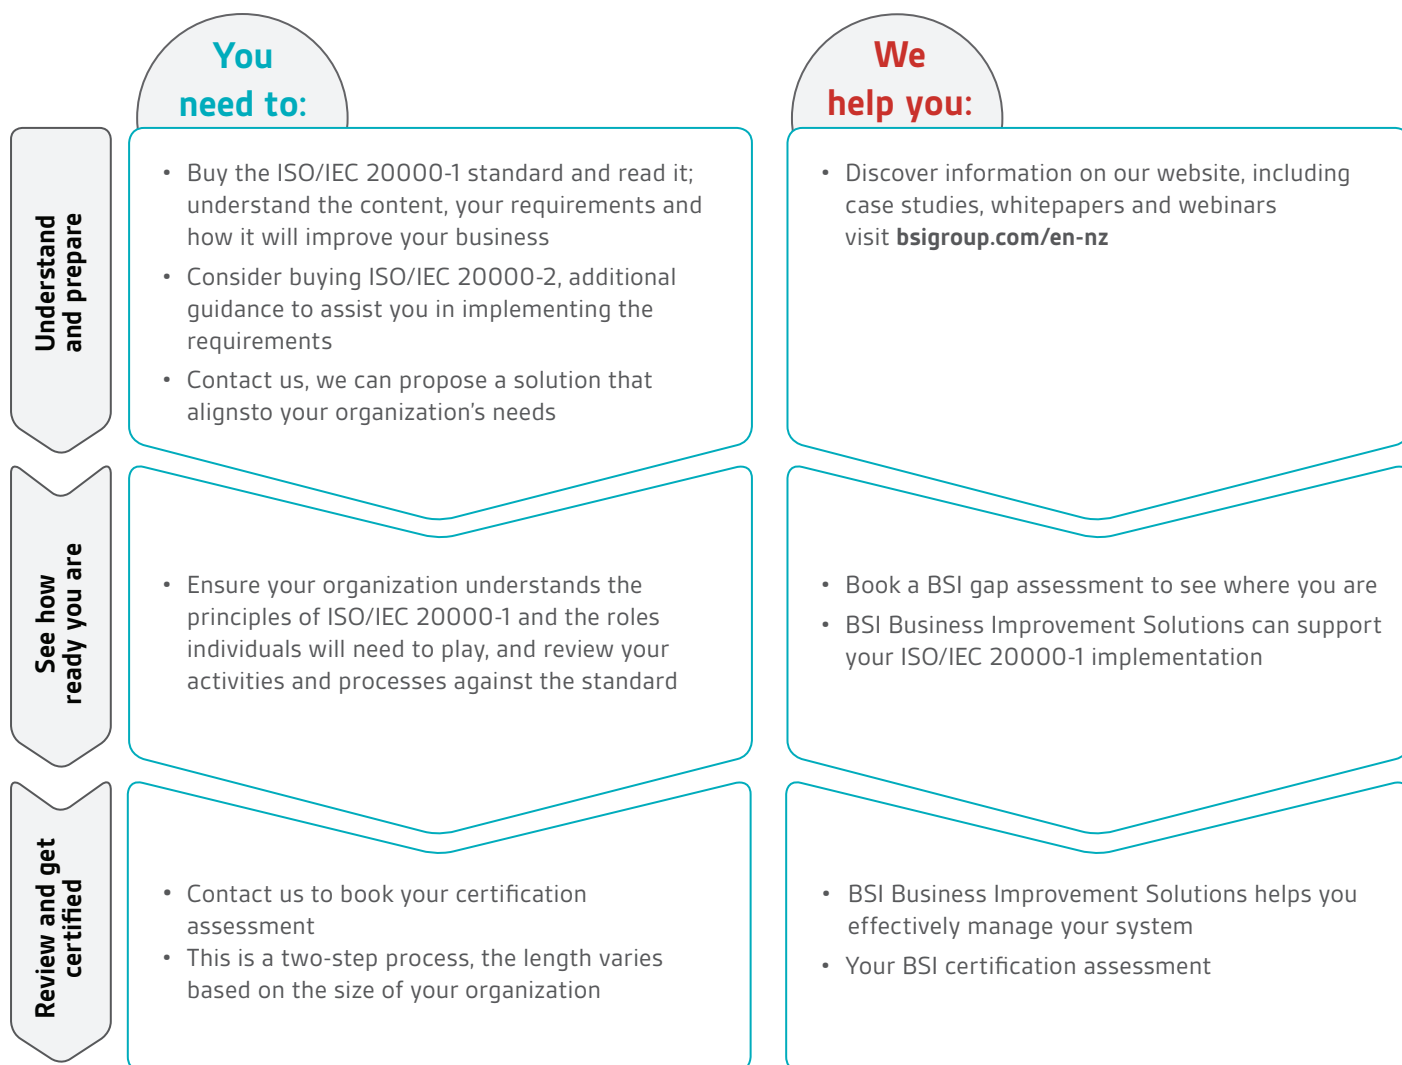

on how to manage your portfolio of services so they remain current and add value.

Whether you're an internal service department or an external service provider, ISO/IEC 20000-1 is the best practice framework you need to provide a consistent, reliable service.

At BSI we have the experience, the experts and the support services to help you get the most from ISO/IEC 20000-1.

Your ISO/IEC 20000-1 Journey

Whether you're new to service management or looking to enhance your current system, we have the right resources and training courses to help you understand and implement ISO/IEC 20000-1. We can help make sure your system keeps on delivering the best for your business.

Continually improve and make excellence a habit
