

Artificial Intelligence Management Systems (AIMS)

Our courses currently in development focus on ISO/IEC 42001, an international standard revolutionizing the way organizations establish, implement, and maintain Artificial Intelligence Management Systems (AIMS).

Designed for entities involved in providing or utilizing AI-based products or services, our courses ensure responsible development and utilization of AI systems. Stay tuned for more details on how our courses can empower your organization to thrive in the age of AI.

ISO/IEC 42001 Artificial Intelligence (AI) Lead Implementer (FEATURED)

 Instructor-led / Tutor-led Training

 \$4595

 5 days

 22-26 July
14-18 October

This instructor-led course will equip delegates with the knowledge and skills to enable them to implement ISO 42001 in any organization. It provides the foundation upon which they can build their experience and develop their competence.

ISO/IEC 42001 Artificial Intelligence (AI) Lead Auditor (FEATURED)

 Instructor-led / Tutor-led Training

 \$4595

 5 days

 23-27 September

This instructor-led course will equip delegates with the knowledge and skills to enable them to explain the key requirements, plan, undertake, report, and follow-up on an audit in any organization against the requirements of the ISO 42001 standard.

ISO/IEC 42001 Artificial Intelligence (AI) Implementing Controls (FEATURED)

Instructor-led / Tutor-led Training

\$1195

1 day

2 September
14 November

This course will teach you how to include any of the optional 38 risk controls in the implementation of your system. This course is recommended for delegates who are involved in the implementing of an AIMS.

ISO/IEC 42001 Artificial Intelligence (AI) Awareness

On-demand learning

\$95

30 minutes

This short session will make you aware of what AI is, why it is important, and how your organization manages the threat. It also considers how you are a vital piece of the jigsaw and what you can do to help your organization.

ISO/IEC 42001 Artificial Intelligence (AI) Requirements

On-demand learning

\$695

4 hours

This course delves into the benefits of implementing a robust AI Management System and the critical aspects of ensuring the effectiveness, fairness, and transparency of AI systems and their outcomes.

ISO/IEC 42001 Artificial Intelligence (AI) Requirements

Instructor-led / Tutor-led Training

\$1195

1 day

22 July
14 August

This course delves into the benefits of implementing a robust AI Management System and the critical aspects of ensuring the effectiveness, fairness, and transparency of AI systems and their outcomes.

ISO/IEC 42001 Artificial Intelligence (AI) Internal Auditor

Instructor-led / Tutor-led Training

\$2950

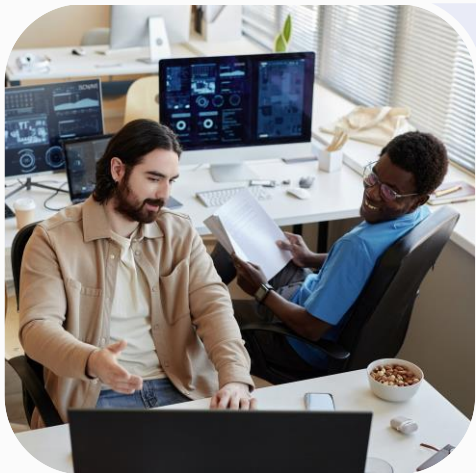

2 days

28-29 August
4-5 November

This instructor-led course will equip delegates with the knowledge and skills to enable them to explain the key requirements, plan, undertake, report, and follow-up on an audit in any organization against the requirements of the ISO 42001 standard.

Understanding ISO/IEC 22899 Information Technology

Instructor-led / Tutor-led Training

\$1195

1 day

27 August
31 October

This instructor-led training course will teach delegates about the ISO/IEC 22899 - key concepts and terminology of AI, a normative reference to ISO 42001:2023.

Understanding and implementing an AI System Impact Assessment

Instructor-led / Tutor-led Training

\$1195

1 day

16 September

This course will teach you how to do an AI impact assessment, a requirement of ISO 42001:2023. This course is recommended for delegates who are involved in implementing and/or auditing an AIMS.

ISO/IEC 42001 Artificial Intelligence (AI) Implementer

Instructor-led / Tutor-led Training

\$2950

2 days

22-23 July

14-15 October

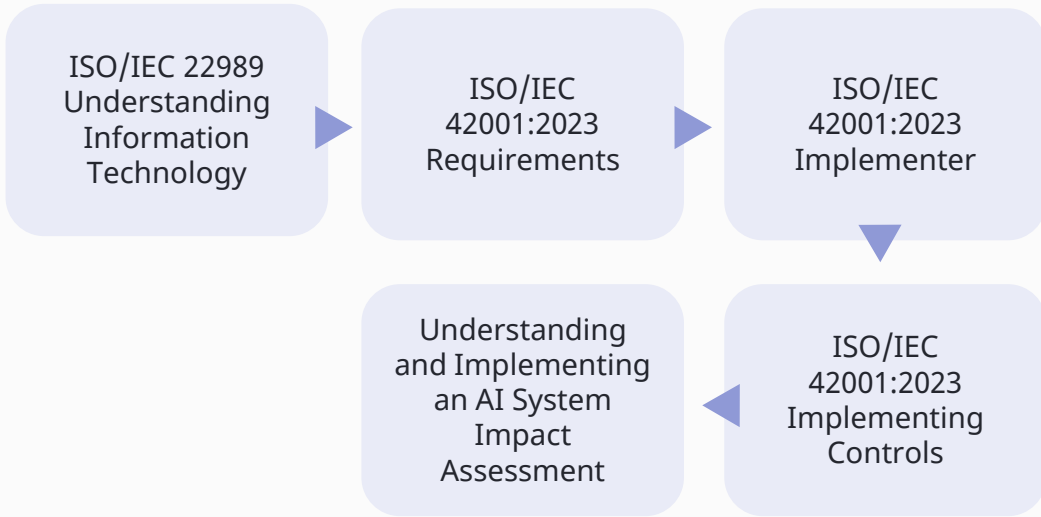

This instructor-led course will equip delegates with the knowledge and skills to enable them to implement ISO 42001 in any organization.

Customized in-house training

We offer in-house training services designed for organizations with multiple employees, providing the convenience of hosting training sessions at your location or virtually online. Additionally, our team specializes in custom course design, tailoring content to meet your specific learning objectives and business needs. Whether you require on-site training for efficiency or a customized program to address unique challenges, we are here to support your organization's training initiatives.
