# Types of training

BSI offers training in many different formats:

## Online training

With BSI's 'live' online training, you can take the same high-quality classroom course with the same expert tutor, simply delivered in a virtual environment, regardless of where you're located.

You can even book a course that's dedicated to your organization, so a group of you can all train at the same time - from anywhere.

## Classroom training

Our public training courses take place in convenient locations across Australia.

Attendees are away from office distractions and benefit from interacting and networking with people from other organizations.

## In-house training

An in-house training course is one held at your premises and is open only to your employees. Training in-house eliminates travel expenses and additional time away from the office. It also keeps your content and discussions confidential.

If you think you may need training in a different format then please contact us to discuss what alternative options we have available.

## On-demand training

You can now learn with more flexibility than ever before thanks to our growing range of video learning, eLearning and micro-learning modules. Our on-demand training delivers the same high-quality content you'd expect from BSI, using a combination of video, online course materials and embedded assessment, enabling you to study at your own pace, in your own time.
