

## BSI Training Academy

# BS EN 9100:2018 **Senior Management** Briefing

### Essential information about the course

Level 

EN 9100:2018 is the internationally recognized Quality Management System (QMS), for the aerospace industry. It helps organizations continually improve, demonstrate their commitment to quality and safety, and mitigates the risk of supply chain failure.

As a leader, your commitment and support is crucial to the success of your organization's Quality Management System. That's why we have developed our executive-level Senior Management Briefing

which will help top managers identify and manage their responsibilities with regards to the standard. This will help your organization to maximize the benefits of adopting BS EN 9100:2018.

The session is fully interactive and led by our expert tutors who have years of experience of working in the aerospace industry. Upon completion you will be able to develop action plans for implementing key leadership activities.

### Our full course agenda helps you understand what to expect:
