

EN 1090-1
CE marking for structural
steel and aluminium

Client questionnaire

CE marking for structural steel and aluminium

CE marking of structural steel and aluminium is mandatory under the requirements of the Construction Products Regulation (CPR). Since 1st July 2014 its been illegal to trade fabricated steelwork and aluminium and related products on the European market without CE marking.

To help us understand your business and provide you with the best possible service to help you to get Factory Production Control to EN1090-1, please take a moment to answer the questions below.

When you have completed this, please save your file and email back to product.certification@bsigroup.com or directly to your sales contact at BSI.

Contact: Job title:

Company: No. of employees:

Address: Town:

County: Postcode:
