Sustainability, energy and environmental management

Give complete confidence to your customers and supply chain that you have the desired skills and competence in sustainability.

With our courses and qualifications, you can demonstrate that you have the aptitude to help make a difference to issues that are important.

Available courses include:

Environmental management ISO 14001

Drive sustainable growth, stimulate innovation and gain access to new markets. Explore our ISO 14001 courses:

- Requirements
- Implementation / Lead implementer
- Auditing / Lead auditor
- CQI and IRCA Certified Lead Auditor

Energy management ISO 50001

Establish, implement and maintain an Energy Management System. Our ISO 50001 courses include:

- Requirements
- Implementation / Lead implementer
- Auditing / Lead auditor

Understanding BS 8001:2017

Learn the principles of the Circular Economy

Carbon neutrality and net zero

Carbon neutrality means not adding new greenhouse gas (GHG) emissions to the atmosphere.

Where emissions continue, they must be offset by absorbing an equivalent amount from the atmosphere, for example through carbon capture and reforestation that is supported by carbon credit schemes.

Your organization will need the expertise, support, and cooperation of your people to achieve carbon neutrality.

Available courses include:

**Achieving carbon neutrality**

Help senior managers speak with confidence about carbon neutrality, and enable your implementation team to deliver its objectives:

- Road to Net Zero. Terminology and Principles (PAS 2060 2014)

- Planning to achieve carbon neutrality (PAS 2060:2014)

- Implementing your Carbon Management Plan (PAS 2060:2014)

- Carbon offsets and achieving carbon neutral status (PAS 2060:2014)

Greenhouse gas emissions

Build the skills and knowledge needed to deliver against your sustainability goals, with confidence:

- ISO 14064-1:2018 Requirements

- Quantifying the Carbon Footprint of Products (ISO 14067:2018)

- Managing Greenhouse Gas Emissions (ISO 14064)

- Technical Documentation for the MDR
- The hidden stings of the MDR (Annex VII)

Other courses include:

- Post-market Surveillance and Vigilance under the MDR and IVDR
- Introduction to Medical Device Software
- Manufacturing Process Validation for Medical Devices: Introduction to Concepts and Methods
- Medical Device Single Audit Program (MDSAP) Fundamentals and Readiness
- Performance Evaluation and Clinical Evidence for IVDs
- Technical Documentation for In Vitro Diagnostic Devices (IVDs)

Why choose the BSI Academy?

We train over 11,000 delegates per year in the UK&I and we're passionate about enabling organizations to become more resilient and sustainable.

Our tutors are experts in their fields

Together, our tutors have 250 years of industry and specialist subject experience across multiple topics.

Using their real-life experiences, our tutors can share the most effective ways to help your organization achieve its objectives, and help individuals reach their potential.

Flexible delivery methods

Our courses can be delivered in person, online, on-demand or a blended approach for maximum flexibility – whatever works best for your teams.
