

## BSI Training Academy

# ISO 14001:2015 Senior (Top) Management Briefing

### Essential information about the course

Level **1C**

ISO 14001 Environmental Management Systems (EMS) put environmental best practice at the heart of your operations, making you more resilient and sustainable. It allows your business to grow and succeed while reducing its environmental impact. Introducing an EMS can help you cut energy bills, reduce waste and win customer confidence in the responsible way you operate. Organizations around the world invest in training their people with BSI so they have the skills and the knowledge to deliver the benefits of ISO 14001.

As a leader, your commitment and support is crucial to the success of your organization's EMS. This executive level briefing is designed to give you an introduction to these standards to ensure environmental objectives are met. You will also learn about your organization's obligations and your personal responsibilities within the management systems.

This interactive session is led by our expert tutors who have years of experience in the EMS field. Upon completion you will be able to develop action plans for implementing key leadership activities.
