Implementing ISO 14001:2015 training course

Essential information about the course

Level

ISO 14001 helps organizations implement a flexible and robust environmental management system (EMS), making them more resilient and sustainable. Organizations around the world invest in training their people with BSI so they have the skills and the knowledge to deliver the benefits of implementing ISO 14001.

If you've already got a thorough understanding of ISO 14001 and need to implement the standard in your organization, then this course is for you.

Most delegates on this course have already attended our ISO 14001:2015 Requirements course and are ready to develop the vital knowledge and skills to implement an effective EMS.

The two-day course is structured to optimize your learning using our accelerated approach, which blends practical activities, group discussions and classroom learning.

"I am highly satisfied with every aspect of the training process and will be recommending BSI to colleagues and affiliates."

Hargreaves Industrial Services, leaders in solid fuel supply and bulk material logistics
