

## BSI Training Academy

# Implementing BS OHSAS 18001 training course

### Essential information about the course

Level 

BS OHSAS 18001 is the management system standard for Occupational Health & Safety (OH&S), that's aligned to internationally recognized best practice. It helps to reduce risk, increase workplace safety, and meet legal and regulatory requirements.

If you've already got a thorough understanding of BS OHSAS 18001 and need to implement the standard in your organization, then this course is for you. Most delegates on this course have already attended our BS OHSAS 18001

requirements course and are ready to take their knowledge further as they put the standard in place in their organization. You will learn vital skills for implementing BS OHSAS 18001 including developing an implementation plan and how to carry out a gap-assessment.

The two-day course is structured to optimize your learning using our unique approach to accelerated learning, and it will consist of a blend of practical activities, group discussions and classroom learning.

**“The BSI Tutor is really awesome. His knowledge was good, and I highly recommend him.”** Recoveriescorp, Australian specialist call-centre
