BS OHSAS 18001 Occupational Health and Safety Management Systems **Lead Auditor** training course

Essential information about the course

Level **1 C 2 C 3**

A BS OHSAS 18001:2007 Occupational Health and Safety Management System can pave the way for optimum working conditions across your organization. Effective health and safety management is achieved when the system's performance is monitored and audited.

To do this well, in-depth knowledge of the BS OHSAS 18001:2007 series empowers you to understand the principles and processes that can improve process safety, risk management and more. You'll learn all this on our lead auditor course.

"Excellent and engaging course with a good mix of activities."

Our course agenda

Day 1

BS OHSAS 18001 Occupational Health and Safety Management Systems **Internal Auditor** training course

We want to make sure you have the best learning experience possible. That's why we offer a range of training courses from beginner to expert. We create a positive learning environment so you retain the knowledge and acquire skills that will continue to be of use beyond the course.

Make sure this is the right course for you.

Why do I need it?

- Quality occupational health and safety management leads to process safety and a system encompassing occupational health and risk management – audits are critical to continually improving your BS OHSAS 18001 management system
- Leading an internal, supplier or third party audit allows you to assess all existing health and safety processes, identifying gaps in performance that prevent continuing compliance or improvement
- As a lead auditor you will have the knowhow to identify and close these gaps

What will I learn?

This five day course will:

- Consolidate your knowledge of BS OHSAS 18001:2007
- Help you to understand the standard's requirements from an auditor's point of view
- Help you get to grips with the principles of health and safety management, learning what it takes to plan, conduct and report on an audit
- Ensure you become confident managing teams of auditors in your organization or as part of an internal, second party or third party audit

How will I benefit?

- With BS OHSAS 18001 you can boost customer, staff, stakeholder and supplier confidence in the way you manage health and safety across your organization
- You will create a framework to work towards statutory compliance, and demonstrate the strengths of your business reputation
- Once you have a robust health and safety framework in place you can reduce workplace accidents and illness that cost both time and money
- Better working conditions will lead to motivated staff and better performance

Why invest in training from BSI?

Our tutors are the best in the business. They're truly passionate about sharing their knowledge and ensuring you learn. Trusted experts with years of hands-on and business experience, they bring the subject matter to life with relevant and contemporary examples.

"The tutor was very patient and able in teaching us how to undertake an audit rather than explaining what an audit is."

Training delivered at your site

This could be a convenient and cost-effective option, especially if you have multiple delegates.
