

## Remote Auditing

### Training course

STAGE 

#### Essential information about the course

The course covers guidance on the processes and procedures required to perform remote audits, including the use of information and communication technology (ICT) to optimize the audit effectiveness and efficiency and support and maintain the integrity of the audit process. The focus of the course is on 1st and 2nd party audits.

--	---

**Prerequisites** - you are expected to have the following:

You'll already be a management system auditor, in any management system discipline.

Please note: The general knowledge and skills of auditing (taught on our typical BSI Internal/Lead Auditor course or equivalent) are not covered again in this course.

### **Why invest in training from BSI?**

We want to make sure you have the best learning experience possible. That's why we offer a range of training courses from beginner to expert. We create a positive learning environment so you retain the knowledge and acquire the skills that will continue to be of use beyond the course.

When you attend a BSI training course, our tutors are the best in the business. They're truly passionate about sharing their knowledge and ensuring you learn. Trusted experts with years of hands-on and business experience, they bring the subject matter to life with relevant and contemporary examples to enhance your learning.

Training delivered at your site could be a convenient and cost effective option, especially if you have multiple delegates. Talk to one of our experts to find out more.
