

International Food Safety Symposium 2018

Pathway for Safer Food and Global Market Access for Your Food Products

10 November 2018 (Saturday)

BACKGROUND

Food safety is always one of the most concerns across the food industry. Food producers, manufacturers, retailers and ingredient suppliers have a responsibility to ensure that their products are safe and of the highest quality. The changing consumer requirements and challenges associated with sustainability, food fraud and global supply chains, companies are faced with complex challenges in trying to live up to this responsibility and ensure compliance to guidelines and regulations.

In view of the complex challenges in the food industry, this seminar provides you the latest updates on food-related issues for the industry. Seats are limited. First-come first-served.
