Networking**

The new EU General Data Protection Regulation (GDPR) will apply across all EU member states, with the official date for enforcement set for 25 May 2018. This reform has significant implications for business, not only for those based in the EU, but for all organizations operating within the EU market. It doesn't just apply to organisations – unless processing for household purposes, it also applies to individuals.

For the first time, monetary sanctions of up to 4% of global annual turnover will apply to breaches of the regulation. It also includes additional measures to protect the personal data of EU citizens. We understand the value of data to your business and the serious implications of a data breach.

Enroll now to have a comprehensive understanding on the data protection requirements.
Seats are limited. First-come first-served.

Mr Philip Chan

Client Manager
BSI Hong Kong

Mr. Chan started his career in Information Technology sector as a trainer and later as a consultant providing project implementation and consultancy services on various types of IT projects. Starting from 2000, Mr. Chan was dedicated to be in charge of all the IT security and risk issues of Cathay Pacific Airways Limited (called CPA) when he worked for IBM China / Hong Limited and Automated Systems (HK) Ltd. His key role was to establish and implement the IT security and risk management process and procedures including the BS 7799 (former version of ISO27001) management system from zero to fully functional and also to manage the day to day security operations, incidents, security related projects and auditing for 3,500 office user + 20,000 crew's IT security and risk related issues afterwards.

Mr. Chan has extensive management systems audit and training experience in information technology sector. Audited clients including Hong Kong Government departments, multi-national information technology service providers and more.

Mr Henry Ng

Managing Director, Critical Information Systems and Cybersecurity, Asia
Thales

Mr Ng is currently the managing director of Thales Critical Information Systems and Cybersecurity business line looking after the Asia region. He manages a regional team to help APAC customers protect against cyber security threats and manage IT security risks. Projects include conducting security review of NFC mobile payment solutions, developing security policies and supporting governance framework, performing IT risk assessment and audits, data privacy and mobile/web security reviews. Customers come from different industry sectors including banking and finance, insurance, telecommunications, transportation and utilities, manufacturing and higher education institutes.

He has been appointed as the adjunct professor for University Malaysia of Computer Science and Engineering, and serves in a number of cybersecurity professional bodies including the director of CSA Hong Kong and Macau Chapter and member of the Hong Kong Expert Group on Cloud Security and Privacy. Henry has been invited frequently as speakers and panelists in many IT security and risk seminars in the region. He also teaches IT security courses and helps promote security awareness to the local community by speaking in schools and the public.

Ms Caroline Chancé

Overseas Lawyer (France), Intellectual Property & Technology
DLA Piper Hong Kong

Ms Chancé advises French and foreign companies on issues relating to data protection and privacy, e-commerce and internet law, as well as contracts and commercial law, consumer law and intellectual property.

She has experience handling multi-jurisdictional audits and compliance projects relating to European and French data protection and consumer protection regulations; counselling on a broad range of issues arising under data protection laws, including on data protection filing requirements; advising clients on internet law (launch of applications, websites, social networks, liability for illicit content, data protection in relation to internet websites) and media.

Her experience includes drafting and review of privacy notices, cookie policies, commercial agreements, terms of use, terms and conditions for promotional games, and IP licensing agreements.
