

## European Union General Data Protection Regulation (EU GDPR) Seminar

14 May 2019 (Tuesday)

### The first anniversary of EU GDPR!

The European General Data Protection Regulation (EU GDPR) came into force on 25 May 2018 and it is now approaching one-year anniversary.

One giant company has been fined £44m by the French data regulator CNIL, for a breach of the EU GDPR. Protecting data has never been so important as the breach of the regulation can be up to €20 million or 4% of global worldwide turnover. The price of non-compliance is costly for your business.

We strongly advocate a risk-based approach to help promote responsible data use. If you want to be ready for the Data Protection Regulation reform, you should start developing and implementing a data protection programme.

Join our **FREE GDPR Seminar** to ensure a *deeper understanding on GDPR!*
