The new ISO 13485:2016
BSI’s Best Practice Transition Journey
5 Key Steps for a Successful Transition

Don’t delay – start working on your transition today

1. Talk to your BSI Client Manager
   - Discuss your challenges and timelines
   - Review the latest webinars and whitepapers on the BSI website for background information

2. Consider BSI’s Training programme
   - Understand the new requirements faster and in greater detail by attending our transition training course, aimed at the new ISO 13485:2016 requirements

3. Communicate with your organization
   - Talk to your leadership team about the new requirements
   - BSI ISO 13485:2016 senior management briefing can help your managers understand the implications of the new standard
   - Communicate the revision to your wider organization to gain buy in
   - Send regular updates on progress
   - Agree strategy and confirm readiness

4. Set up an Internal Project Team
   - Conduct a gap analysis against your current system
   - Create an implementation plan and monitor progress
   - Take a fresh look at your QMS
   - Update your documentation to reflect the new standard and implement the additional requirements
   - Agree an updated visit schedule with BSI Client Manager

5. Gap Transition Assessment
   - Consider a gap assessment to help you identify any weaknesses prior to formal assessment

Transition to the new standard as soon as possible to gain the additional benefits.
